Nikon DK-21 Rubber Eyecup User Manual

Model: DK-21 (25335)

Brand: Nikon

PRODUCT OVERVIEW

The Nikon DK-21 Rubber Eyecup is an essential accessory designed to enhance the viewing experience through your camera's viewfinder. It minimizes the intrusion of extraneous light, which can cause glare and distraction, and contributes to reducing vision fatigue during extended use.

Key Features

- Minimizes extraneous light entering the viewfinder.
- Reduces vision fatigue during prolonged camera use.
- Durable rubber construction.
- Designed for specific Nikon Digital SLR Cameras.

Image: Front view of the Nikon DK-21 Rubber Eyecup, showcasing its ergonomic design.

COMPATIBILITY

The DK-21 Rubber Eyecup is compatible with the following Nikon Digital SLR Camera models:

- Nikon D750
- Nikon D610
- Nikon D600
- Nikon D7000
- Nikon D90
- And other compatible Nikon DSLR cameras.

INSTALLATION GUIDE

Follow these steps to properly attach the DK-21 Rubber Eyecup to your camera's viewfinder:

1. **Identify Viewfinder:** Locate the viewfinder eyepiece on the rear of your Nikon Digital SLR camera.
2. **Remove Existing Eyecup (if applicable):** If an existing eyecup is present, gently slide it upwards or outwards to remove it from the viewfinder frame.
3. **Align Eyecup:** Position the DK-21 Rubber Eyecup with the viewfinder frame. Ensure the shape of the eyecup aligns correctly with the frame.
4. **Slide into Place:** Carefully slide the eyecup onto the viewfinder frame until it clicks securely into position. Apply gentle, even pressure.

5. **Verify Secure Attachment:** Lightly tug on the eyecup to ensure it is firmly attached and does not wobble.

Image: Top view of the DK-21 Eyecup, illustrating its shape for proper alignment during installation.

OPERATING PRINCIPLES

Once installed, the DK-21 Rubber Eyecup functions passively to improve your viewing experience.

- **Light Blocking:** The primary function is to create a seal around your eye when looking through the viewfinder, blocking ambient light from entering and causing glare or reflections. This allows for a clearer, more accurate view of your subject.
- **Comfort:** The soft rubber material provides a comfortable cushion against your eye or eyeglasses, reducing discomfort during extended shooting sessions.
- **Vision Fatigue Reduction:** By minimizing external light interference and providing a comfortable contact point, the eyecup helps reduce strain on your eyes, contributing to less vision fatigue.

CARE AND MAINTENANCE

To ensure the longevity and optimal performance of your DK-21 Rubber Eyecup, follow these maintenance guidelines:

- **Cleaning:** Use a soft, lint-free cloth to gently wipe the rubber surface. For stubborn dirt, dampen the cloth slightly with water. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** When not in use, store the eyecup in a clean, dry place away from direct sunlight and extreme temperatures.
- **Inspection:** Periodically inspect the eyecup for any signs of wear, tears, or damage. Replace if necessary to maintain optimal performance.
- **Avoid Excessive Force:** Do not pull or twist the eyecup with excessive force, as this may cause it to detach or tear.

TROUBLESHOOTING

Eyecup Detaches Easily

If the eyecup frequently detaches from the viewfinder:

- **Re-installation:** Ensure the eyecup is correctly aligned and fully slid onto the viewfinder frame until it

is securely seated.

- **Compatibility Check:** Verify that your camera model is listed as compatible with the DK-21 eyecup.
- **Wear and Tear:** Inspect the eyecup and the camera's viewfinder frame for any damage or wear that might prevent a secure fit. If the eyecup itself is worn or stretched, replacement may be necessary.
- **Environmental Factors:** Extreme temperature changes or prolonged exposure to certain elements might affect the rubber's elasticity.

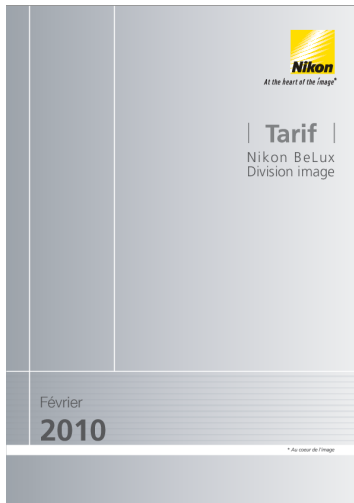

PRODUCT SPECIFICATIONS

Feature	Detail
Model Number	DK-21 (25335)
Brand	Nikon
Product Dimensions	2.25 x 1.5 x 1.5 inches
Item Weight	0.352 ounces
Material	Rubber
Manufacturer	Nikon
First Available Date	October 2, 2001

WARRANTY AND SUPPORT

For information regarding warranty coverage, technical support, or service for your Nikon DK-21 Rubber Eyecup, please refer to the official Nikon website or contact Nikon customer service directly. Keep your purchase receipt as proof of purchase.
