OPERATING INSTRUCTIONS

Basic Controls

Refer to the in-game tutorial for detailed control explanations. The game primarily utilizes a card-based system for movement, attacks, and various actions, requiring strategic input rather than real-time action commands.

Gameplay Modes

- **Story Mode:** Progress through the main narrative, engaging in tactical espionage missions.
- **Arena Mode:** Challenge classic boss enemies from the Metal Gear series.
- **Multiplayer Versus Mode:** Engage in wireless head-to-head battles with other players. This mode requires two Wi-Fi compatible PSP systems and utilizes Ad Hoc connectivity.
- **3D Mode:** Activate 3D viewing for gameplay and trailers with the compatible 3D goggle attachment.

Card System

The game features over 500 unique cards. These cards are used to perform all in-game actions, including movement, attacks, using items, and special abilities. Strategic deck building and hand management are crucial for success.

Saving Your Game

Game progress is saved to a Memory Stick Duo. Ensure a Memory Stick Duo with at least 352 KB of free space is inserted into your PSP system to save your progress.

MAINTENANCE

- Keep the UMD disc clean and free from scratches. Handle the disc by its edges to avoid fingerprints and damage.
- Store the UMD disc in its protective case when not in use to prevent dust and scratches.
- Avoid exposing the PSP system or UMD disc to extreme temperatures, direct sunlight, or moisture.
- Regularly clean your PSP system's screen and casing with a soft, dry cloth. Do not use harsh chemicals.

TROUBLESHOOTING

- **Game Not Starting:** Ensure the UMD disc is correctly inserted and clean. Check if your PSP system's firmware is up to date.
- **Game Freezes:** Try restarting your PSP system. Ensure the UMD disc is not damaged. If the issue persists, try cleaning the disc with a soft, lint-free cloth.
- **Saving Issues:** Verify that a Memory Stick Duo is inserted and has sufficient free space (at least 352 KB). Ensure the Memory Stick Duo is not write-protected.
- **Multiplayer Connection Problems:** Ensure both PSP systems are within range and Wi-Fi is enabled. Check that both systems are configured for Ad Hoc mode and are running the same game version.
- **3D Mode Not Working:** Confirm the 3D goggle attachment is securely connected and functioning correctly. Ensure 3D mode is enabled in the game settings.
