

Grant 201

Grant Model 201 381mm Wood Steering Wheel Instruction Manual

Model: 201 | Brand: Grant

1. INTRODUCTION

Welcome to your new Grant Model 201 Wood Steering Wheel. This manual provides essential information for the proper installation, operation, and maintenance of your steering wheel. Please read it thoroughly before proceeding with installation or use.

The Grant Model 201 is a premium steering wheel designed for vehicle-specific fitment. It features a 38.1 cm (15-inch) diameter, a genuine hand-polished hardwood grip with a walnut finish, anodized aluminum rivets for a sporty look, and durable chrome-plated steel spokes.

Image 1.1: The Grant Model 201 Wood Steering Wheel, showcasing its polished hardwood rim and chrome-plated steel spokes.

2. SAFETY INFORMATION

Always prioritize safety during installation and operation. Failure to follow these instructions may result in injury or damage to your vehicle.

- **Professional Installation Recommended:** If you are not experienced with automotive modifications, it is highly recommended to have this steering wheel installed by a qualified professional.
- **Disconnect Battery:** Always disconnect the vehicle's negative battery terminal before beginning any electrical work or steering wheel removal.
- **Airbag Systems:** If your vehicle is equipped with an airbag system, extreme caution must be exercised. Improper handling can lead to accidental deployment or system malfunction. Consult your vehicle's service manual for specific airbag removal procedures.
- **Proper Torque:** Ensure all fasteners are tightened to the manufacturer's specified torque settings. Over-tightening or under-tightening can lead to component failure.
- **Horn Functionality:** Verify that the horn operates correctly after installation.
- **Steering Column Integrity:** Do not modify or damage the steering column during installation.

3. PACKAGE CONTENTS

Please verify that all components are present before beginning installation.

- Grant Model 201 Wood Steering Wheel (1 unit)
- Mounting Hardware (typically included with a separate vehicle-specific installation kit)
- Horn Button Assembly (if applicable and included with the kit)

Note: A vehicle-specific mounting kit (hub adapter) is required for installation and is sold separately. Ensure you have the correct kit for your vehicle's make, model, and year.

4. SETUP AND INSTALLATION

The following steps provide a general guide for installing the Grant Model 201 steering wheel. Specific procedures may vary depending on your vehicle and the mounting kit used. Always refer to your vehicle's service manual and the instructions provided with your specific mounting kit.

1. **Prepare Vehicle:** Park the vehicle on a level surface, engage the parking brake, and disconnect the negative terminal of the battery. Ensure the front wheels are straight.
2. **Remove Original Steering Wheel:** Carefully follow your vehicle's service manual to remove the original steering wheel. This often involves removing the horn pad, disconnecting electrical connectors (including airbag if present), and unbolting the steering wheel from the steering column shaft.
3. **Install Mounting Hub Adapter:** Install the vehicle-specific mounting hub adapter onto the steering column shaft according to the instructions provided with the adapter kit. Ensure it is properly aligned and secured.
4. **Connect Horn Wiring:** Route the horn wiring through the steering wheel and connect it to the horn button assembly as per the instructions.
5. **Attach Steering Wheel:** Position the Grant Model 201 steering wheel onto the mounting hub adapter, aligning the bolt holes. Secure the steering wheel to the hub using the provided fasteners. Tighten bolts evenly and to the specified torque.
6. **Install Horn Button:** Install the horn button assembly into the center of the steering wheel.
7. **Final Checks:** Reconnect the negative battery terminal. Test the horn and ensure all steering functions operate correctly. Turn the steering wheel lock-to-lock to confirm no binding or interference.

5. OPERATION

The Grant Model 201 steering wheel is designed to function identically to your vehicle's original steering wheel once properly installed. It provides a comfortable and secure grip for vehicle control.

- **Steering:** Use the steering wheel to control the direction of your vehicle.
- **Horn:** Press the center horn button to activate the vehicle's horn.

Always operate your vehicle safely and responsibly, adhering to all traffic laws.

6. MAINTENANCE

Proper care will ensure the longevity and appearance of your Grant Model 201 steering wheel.

- **Wood Rim:** Clean the hardwood rim with a soft, damp cloth. For deeper cleaning or to restore luster, use a wood-specific cleaner or polish designed for automotive interiors. Avoid harsh chemicals or

abrasive cleaners that can damage the finish.

- **Chrome Spokes:** Wipe chrome-plated steel spokes with a soft, dry cloth. For stubborn spots, use a mild chrome cleaner and polish. Do not use abrasive pads or cleaners that can scratch the chrome.
- **General Cleaning:** Regularly wipe down the entire steering wheel to remove dust and grime.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause the wood finish to fade or crack over time. Consider using a sunshade when parking for extended periods.

7. TROUBLESHOOTING

If you encounter any issues with your Grant Model 201 steering wheel, refer to the following table for common problems and solutions.

Problem	Possible Cause	Solution
Steering wheel feels loose or has excessive play.	Mounting bolts are not sufficiently tightened. Hub adapter not properly seated.	Check and re-tighten all mounting bolts to specified torque. Ensure the hub adapter is correctly installed on the steering column shaft.
Horn does not work.	Horn wiring disconnected or faulty. Fuse blown.	Check all horn wiring connections. Inspect the vehicle's horn fuse and replace if necessary. Consult a professional if the issue persists.
Steering wheel is off-center when driving straight.	Steering wheel or hub adapter was not aligned correctly during installation.	Re-align the steering wheel and hub adapter. If necessary, a wheel alignment may be required.

8. SPECIFICATIONS

Key specifications for the Grant Model 201 Wood Steering Wheel:

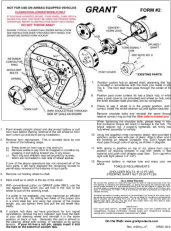

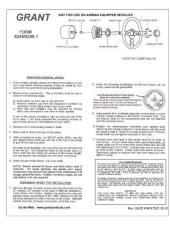

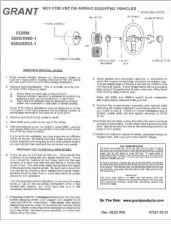

Feature	Detail
Brand	Grant
Model Number	201
Product Dimensions	39.37 x 11.43 x 38.74 cm (15.5 x 4.5 x 15.25 inches)
Item Weight	1.59 Kilograms (3.5 lbs)
Material	Wood (Walnut finish), Chrome-plated Steel
Color	Brown
Assembly Required	No (Mounting kit assembly required)
Item Diameter	15 Inch (38.1 cm)
Handle Size	15 inches
Number of Spokes	3
Vehicle Service Type	Car
UPC	081126002017

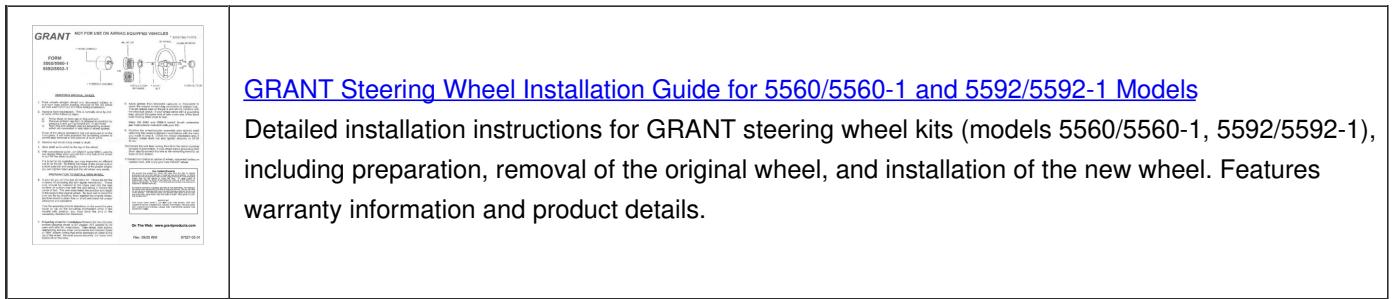

9. WARRANTY AND SUPPORT

For information regarding product warranty, returns, or technical support, please refer to the official Grant website or contact your authorized retailer. Keep your proof of purchase for warranty claims.

Corrections Standards Authority
Instructions for the Mentally III Offender Crime Reduction Grant
On-Line Process for Invoices and Budget Modifications
January 2007

Start-up Instructions

Grantees can locate the Invoice and/or Budget Modification forms for their agency on the Corrections Standards Authority (CSA) website - MIOCR Grant program "home page," <http://www.csa.ca.gov/GrantPrograms/GrantPrograms.html>. The on-line Grant files are contained within the Online Invoice/Modification Forms and Instructions link. Within this link, there are two boxes at the bottom of the page which link to the Invoice: one for grants targeting adult programs, and one for grants targeting juvenile programs; please select the appropriate box.

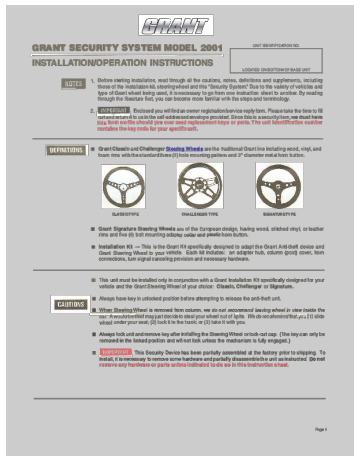

Invoicing/modification files must be saved on a local computer and **not** written the web browser. Therefore, files **MUST** be downloaded and saved to a local computer for each reporting period (this will ensure the most current budget information is being used on the invoices and budget modifications). In addition, downloaded files **MUST NOT** be renamed when saved to the local computer as the on-line substantial link will be severed. The on-line invoicing process relies on Outlook being configured on the local computer; if the computer you will be using does not have Outlook available, please contact your assigned Field Representative for technical assistance.

1. To download the invoice file, right-click on your agency name and select "Save Target As...". Navigate to a folder on your computer where you would like to save the form and click "Save" as stated above. **DO NOT** rename the file. Once saved, you **must exit** the web browser and work directly from the newly saved document.
2. The on-line invoice forms have specific functions which require macros to be enabled. A macro is a series of commands and functions such as calculations that are stored within the document for tasks performed repeatedly. In most cases, Excel will prompt the user to enable macros. When this prompt appears, click "enable." **Enabling macros for this document will not in any way compromise the security of the local system nor the security of the agency's network.** If the macros prompt does not appear, contact your information technology/network department to assist in enabling the macros.
3. When opening the invoice file, the user will be prompted for a password. The password is the grant award number (also known as contract number) specific to each grantee (example: 980150).
4. Once the file is opened, the Excel workbook specific to each grantee will appear. The workbook is arranged by tabbed worksheets (located along the bottom) containing the quarterly invoice forms, budget modification form, program modification form and instructions.

The Hazard Mitigation Assistance Grant Programs

Hazard Mitigation Assistance

The Department of Homeland Security's Federal Emergency Management Agency (FEMA) administers Hazard Mitigation Assistance (HMA) programs aimed at reducing the risk to individuals and property from natural hazards. Assistance is available for a wide range of projects, from individual property-level mitigation to large-scale community-wide disaster reduction.

A Common Goal

The primary goal of all of the programs offered by FEMA is to reduce the risk to individuals and property from natural hazards. Assistance is available for a wide range of projects, from individual property-level mitigation to large-scale community-wide disaster reduction.

Funding Disaster Recovery Efforts

The Hazard Mitigation Assistance (HMA) program can provide funding for a wide range of projects, from individual property-level mitigation to large-scale community-wide disaster reduction. Assistance is available for a wide range of projects, from individual property-level mitigation to large-scale community-wide disaster reduction.

The Hazard Mitigation Assistance (HMA) Program

The HMA program is authorized by Section 406 of the Robert T. Stafford Act, 42 U.S.C. 5126. The HMA program is designed to assist individuals, businesses, and communities in reducing the risk to individuals and property from natural hazards. Assistance is available for a wide range of projects, from individual property-level mitigation to large-scale community-wide disaster reduction.

The Hazard Mitigation Assistance (HMA) Program

The HMA program is authorized by Section 406 of the Robert T. Stafford Act, 42 U.S.C. 5126. The HMA program is designed to assist individuals, businesses, and communities in reducing the risk to individuals and property from natural hazards. Assistance is available for a wide range of projects, from individual property-level mitigation to large-scale community-wide disaster reduction.

The Pre-Disaster Mitigation (PDM) Program

The PDM program is authorized by Section 406 of the Robert T. Stafford Act, 42 U.S.C. 5126. The PDM program is designed to assist individuals, businesses, and communities in reducing the risk to individuals and property from natural hazards. Assistance is available for a wide range of projects, from individual property-level mitigation to large-scale community-wide disaster reduction.

The Pre-Disaster Mitigation (PDM) Program

The PDM program is authorized by Section 406 of the Robert T. Stafford Act, 42 U.S.C. 5126. The PDM program is designed to assist individuals, businesses, and communities in reducing the risk to individuals and property from natural hazards. Assistance is available for a wide range of projects, from individual property-level mitigation to large-scale community-wide disaster reduction.

The Flood Mitigation Assistance (FMA) Program

The FMA program is authorized by Section 406 of the Robert T. Stafford Act, 42 U.S.C. 5126. The FMA program is designed to assist individuals, businesses, and communities in reducing the risk to individuals and property from natural hazards. Assistance is available for a wide range of projects, from individual property-level mitigation to large-scale community-wide disaster reduction.

The Flood Mitigation Assistance (FMA) Program

The FMA program is authorized by Section 406 of the Robert T. Stafford Act, 42 U.S.C. 5126. The FMA program is designed to assist individuals, businesses, and communities in reducing the risk to individuals and property from natural hazards. Assistance is available for a wide range of projects, from individual property-level mitigation to large-scale community-wide disaster reduction.

**Tony Grant Joins Betson Enterprises as
National Sales Manager of Audio Visual & Security Services**

March 23, 2017 (Carleah, NJ) – H. Betti Industries, Inc. the leading provider of location based entertainment equipment solutions is pleased to announce Tony Grant has joined the organization to lead the Audio Visual Department.

In his new role, Tony will work on developing Betson's Audio Visual presence to meet the needs of today's F&C clients. His focus will be on ensuring customers are well served from not just a sales point of view but from a technological and engineering perspective.

"We are pleased to welcome Tony to the Betson family," said Richard Zayas-Doran, VP, Betson Imperial Park & Service. "Tony brings an impressive portfolio of Audio Visual, lighting and security expertise, his technology and engineering background will only serve to enhance our existing offering."

Previously, Tony worked for Visual Systems Group Inc. as an account manager and sales engineer, where in two years, his clients tripled as he took his territory from zero to \$7 million. He has also worked at Anderson Audio Visual, K.T. Integration, K2W, Inc. and AVI-SP. Tony is adept at forging relationships and has worked with well-known brands such as Coca-Cola, United Health Group, Bank of America, and the U.S. Air Force.

"Tony's experience in the commercial and residential design build audio-video industry will help us to better service our clients," added Jonathan Betti, VP Sales and Business Development. His knowledge spans so many key areas including installation, project management and engineering."

"I am pleased to be part of the Betson team and feel lucky to work in such an exciting sector for the past 28 years," said Tony. "I love working with clients to bring their audio visual interpretations to life. I am looking forward to delivering profitable solutions to Betson's customers."

For questions or inquiries about Audio Visual, Tony can be reached at: (513) 915-8076 or tgrant@betson.com.

About Betson Enterprises:
Founded in 1984, Betson is today's leader in providing profitable solutions to the location-based entertainment industry. Our comprehensive product line includes amusement games, vending equipment, audio visual, party, and specialty. Through our nationwide network of 18 offices, Betson offers client specific consultative solutions for the design, installation, service, and exporting of equipment. We offer competitive interest rates for leasing and financing, as well as deferred payments.
