Better Living AVIVA 76345 Three Chamber Shower Dispenser Instruction Manual

Model: 76345 | Brand: Better Living

INTRODUCTION

The Better Living AVIVA Three Chamber Dispenser is designed to provide an organized and convenient solution for your bath and shower. This dispenser helps eliminate bottle clutter and offers easy access to your favorite liquids. It features a durable, water-resistant construction and integrated hooks for additional storage.

SETUP AND INSTALLATION

The AVIVA dispenser is designed for quick and tool-free installation, ensuring no damage to your walls.

1. Step 1: Clean Surface

Ensure the installation surface is clean, dry, and free of soap scum or residue.

2. Step 2: Place Double-Sided Tape

Apply the included waterproof double-sided tape to the back of the mounting bracket.

3. Step 3: Apply Silicone Adhesive

Apply the included waterproof silicone adhesive to the back of the mounting bracket, ensuring even coverage.

4. Step 4: Mount Wall Bracket

Firmly press the bracket onto the desired clean surface.

5. Step 5: Wait 24 Hours

Allow the adhesive to cure for a full 24 hours before placing the dispenser chambers. This ensures a secure bond.

6. Step 6: Set Dispenser Chambers

Slide the individual dispenser chambers onto the mounted bracket.

7. Step 7: Fill & Enjoy

Open the tops of the chambers and fill with your desired liquids.

OPERATING INSTRUCTIONS

Using your AVIVA dispenser is simple and efficient.

Dispensing Liquids

1. Place your hand under the dispenser outlet.
2. Press the large button on the front of the desired chamber.
3. A pre-measured amount of liquid will be dispensed. Repeat if more is needed.

Image: Effortless one-handed dispensing of liquids.

Refilling Chambers

1. Gently lift the individual chamber upwards from the mounting bracket to remove it.
2. Open the top lid of the chamber.
3. Pour your desired liquid (shampoo, conditioner, body wash, etc.) into the chamber.
4. Close the top lid securely and slide the chamber back onto the mounting bracket.

MAINTENANCE

Regular cleaning and proper care will ensure the longevity and optimal performance of your dispenser.

- **Cleaning:** The individual chambers can be easily lifted off the wall for thorough cleaning. Use mild soap and water to clean the exterior and interior of the chambers. Avoid abrasive cleaners.
- **Material:** The housing is constructed from durable, water-resistant ABS plastic with a high-quality chrome finish, guaranteed to be rust-free.
- **Refilling:** Always ensure the chambers are properly seated on the bracket after refilling to prevent accidental detachment.

Image: The dispenser features a high-quality chrome finish that is rust-proof.

TROUBLESHOOTING

Priming the Pumps

If the dispenser is new or has been empty, you may need to prime the pumps to initiate liquid flow:

1. Depress the button of the desired chamber.
2. Place your finger over the outlet to block airflow.
3. Release the button, then remove your finger.
4. Repeat this process several times until liquid begins to flow consistently.
