Danco 88923 Clip Style Shower Drain Cover

Instruction Manual

PRODUCT OVERVIEW

The Danco 88923 Clip Style Shower Drain Cover is designed to prevent debris, such as hair and soap residue, from entering and clogging your shower drain. This cover is constructed from durable aluminum and features a chrome-plated finish, making it suitable for use with 3-3/8 inch shower drains.

SETUP AND INSTALLATION

This shower drain cover features a clip-style design for straightforward installation. It is specifically engineered to fit standard 3-3/8 inch shower drains.

1. **Verify Drain Size:** Ensure your shower drain opening measures approximately 3-3/8 inches in diameter.
2. **Clean Drain Area:** Remove any existing debris or obstructions from around and within the drain opening.
3. **Position the Cover:** Place the Danco 88923 drain cover directly over the shower drain opening.
4. **Secure Clips:** Gently press down on the cover, ensuring the integrated clips on the underside engage with the drain opening to hold it securely in place. Adjust as needed for a flat and stable fit.

OPERATING INSTRUCTIONS

The Danco 88923 Clip Style Shower Drain Cover operates passively by resting over your shower drain. Its primary function is to intercept hair and other debris, preventing them from entering the plumbing system and causing blockages. No active operation is required beyond proper installation.

MAINTENANCE

Regular cleaning of your shower drain cover is essential to maintain its effectiveness and appearance.

- **Daily Cleaning:** After each shower, remove the drain cover and wipe away any accumulated hair or debris with a paper towel or tissue.
- **Weekly Cleaning:** For a more thorough cleaning, wash the drain cover with warm water and a mild soap. Use a soft brush if necessary to remove any stubborn residue from the perforations.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, harsh chemicals, or scouring pads, as these can damage the chrome finish and the aluminum material.
- **Drying:** Allow the drain cover to air dry completely before placing it back over the drain to help prevent water spots and maintain its finish.

The chrome finish may show signs of wear over time due to continuous exposure to water and cleaning agents. Consistent gentle cleaning practices can help prolong its aesthetic quality.

TROUBLESHOOTING

- **Cover Rests Awkwardly or Moves:** If the drain cover does not sit flat or shifts easily, carefully adjust the clips on the underside to ensure they are properly engaged with the drain opening. Avoid excessive force when bending the clips to prevent breakage.
- **Small Debris Passes Through:** While designed to catch most common debris, very fine hairs or particles may occasionally pass through the perforations. If this is a concern, consider placing a finer mesh strainer underneath the Danco cover for additional filtration.
- **Cover Bends or Dents:** The aluminum construction is durable but can be susceptible to bending or denting under heavy impact. Avoid stepping directly on the drain cover.
- **Finish Discoloration:** Over time, the chrome finish may discolor or show wear. This is often due to mineral deposits from water or exposure to certain cleaning products. Regular, gentle cleaning as

outlined in the Maintenance section can help mitigate this.

SPECIFICATIONS

Feature	Detail
Brand	Danco
Model Number	88923
Material	Aluminum
Finish	Chrome
Drain Size Compatibility	3-3/8 inches
Item Weight	0.03 Pounds
UPC	037155889235

WARRANTY INFORMATION

This Danco product comes with a **Limited 1-Year Warranty**. For specific terms and conditions, please refer to the warranty documentation included with your purchase or contact Danco customer support.
