Leviton 88003 1-Gang Duplex Receptacle Wallplate Instruction Manual

Brand: Leviton | Model: 88003

PRODUCT OVERVIEW

The Leviton 88003 1-Gang Duplex Device Receptacle Wallplate is a standard-sized, thermoset wallplate designed for use with traditional Leviton duplex devices. It offers a clean, functional aesthetic suitable for various residential and commercial applications, providing a durable and easy-to-install solution for covering electrical outlets.

Key Features:

- **Versatile Design:** Accents any wall covering with a wide selection of colors and finishes.
- **Durable Construction:** Smooth face and rounded edges resist dust accumulation.
- **Long-lasting Appearance:** Resistant to fading, discoloration, grease, oil, organic solvents, and moisture scratches.
- **Electrical Safety:** Designed for high dielectric strength and arc resistance.

INSTALLATION INSTRUCTIONS

Before beginning installation, ensure the power to the electrical outlet is turned off at the circuit breaker to prevent electrical shock. Safety is paramount when working with electrical components.

1. **Prepare the Area:** Turn off the power to the receptacle at the main electrical panel. Use a voltage tester to confirm that the power is off before proceeding.
2. **Remove Existing Wallplate:** Carefully unscrew and remove the old wallplate from the electrical receptacle.
3. **Position New Wallplate:** Align the new Leviton 88003 wallplate over the duplex receptacle, ensuring the openings match the receptacle's configuration.
4. **Secure Wallplate:** Insert the provided screw into the center hole of the wallplate and gently tighten it until the wallplate is snug against the wall. Avoid overtightening, which can crack the wallplate or

damage the receptacle.

5. **Restore Power:** Once the wallplate is securely installed, restore power to the circuit at the main electrical panel.

OPERATING INSTRUCTIONS

The Leviton 88003 wallplate is a passive component designed to cover and protect electrical receptacles. No specific operational steps are required beyond ensuring it is securely installed and provides a safe barrier for the electrical device.

- Ensure the wallplate remains securely fastened to the wall.
- Periodically check for any signs of damage or loosening.

CARE AND MAINTENANCE

To maintain the appearance and integrity of your Leviton 88003 wallplate, follow these simple care instructions:

- **Cleaning:** Wipe the wallplate with a soft, damp cloth. For stubborn marks, a mild soap solution can be used. Avoid abrasive cleaners, harsh chemicals, or scouring pads, as these can damage the finish.
- **Inspection:** Regularly inspect the wallplate for any cracks, discoloration, or loose screws. Replace the wallplate if any damage is observed to ensure continued safety and aesthetic appeal.

TROUBLESHOOTING

Most issues with a wallplate are related to installation or physical damage. Here are some common concerns and their solutions:

- **Loose Wallplate:** If the wallplate feels loose, gently tighten the center screw. Do not overtighten. If the screw hole is stripped, consider using a larger screw or a wall anchor designed for electrical boxes.
- **Cracked or Damaged Wallplate:** If the wallplate is cracked, chipped, or otherwise damaged, it should be replaced immediately to maintain safety and appearance.
- **Discoloration:** While resistant to discoloration, prolonged exposure to certain chemicals or UV light can affect the finish. If discoloration occurs and is bothersome, replacement is the only solution.

PRODUCT SPECIFICATIONS

Specification	Detail
Brand	Leviton
Model Number	88003
Material	Thermoset Plastic
Color	White
Product Dimensions	1"W x 1"H (Standard Size)
Configuration	1-Gang Duplex Device
Installation Type	Screw-In

Item Weight	0.64 ounces
Included Components	Wall-plate

WARRANTY AND SUPPORT

This Leviton wallplate comes with a limited two-year warranty. For warranty claims or technical support, please refer to the official Leviton website or contact their customer service department. Keep your purchase receipt as proof of purchase.
