Kensington K33374

Kensington K33374 Wireless Presenter with Laser Pointer User Manual

Comprehensive guide for setup, operation, and maintenance of your Kensington K33374 Wireless Presenter.

1. PRODUCT OVERVIEW

The Kensington K33374 Wireless Presenter with Laser Pointer is designed for effective presentations. It features intuitive controls, a reliable wireless connection, and a built-in laser pointer to highlight key information.

2. PACKAGE CONTENTS

Ensure all items are present in the package:

- Kensington K33374 Wireless Presenter
- USB Wireless Receiver
- 2 AAA Batteries (included)
- User Manual (this document)

3. SETUP INSTRUCTIONS

3.1. Battery Installation

1. Locate the battery compartment on the back of the presenter.
2. Open the battery compartment cover.
3. Insert two AAA batteries, ensuring correct polarity (+/-).
4. Close the battery compartment cover securely.

Internal Storage for Nano Receiver

Battery compartment also provides a handy internal storage space for the wireless USB nano receiver when not in use. Each receiver and presenter are uniquely paired to prevent interference.

3.2. Connecting the USB Receiver

1. Remove the USB receiver from its internal storage compartment within the presenter.
2. Plug the USB receiver into an available USB port on your computer.
3. The computer should automatically detect and install the necessary drivers (Plug & Play).

4.1. Button Functions

- **Forward Button (Right Arrow):** Advances to the next slide in your presentation.
- **Backward Button (Left Arrow):** Returns to the previous slide in your presentation.
- **Laser Pointer Button (Red Dot):** Activates the red laser pointer to highlight specific areas on your screen.
- **Black Screen Button (Square):** Toggles the screen to black, allowing you to focus audience attention on yourself. Press again to return to the presentation.
- **On/Off Switch:** Located on the side of the presenter, slide to turn the device on or off to conserve battery life.

4.2. Wireless Range

The 2.4GHz wireless technology provides an interference-free control range of up to 65 feet (approximately 20 meters), allowing you to move freely around the room during your presentation.

5. MAINTENANCE

5.1. Battery Replacement

When the presenter's performance diminishes, replace the two AAA batteries following the installation steps in Section 3.1.

5.2. Cleaning

Wipe the presenter with a soft, dry cloth. Avoid using harsh chemicals or abrasive cleaners.

6. TROUBLESHOOTING

- **Presenter not responding:**

    - Ensure the presenter is switched ON.
    - Check if the batteries are correctly installed and have sufficient charge. Replace if necessary.
    - Verify the USB receiver is securely plugged into a working USB port on your computer.
    - Try plugging the USB receiver into a different USB port.

- **Laser pointer not working:**

    - Ensure the presenter is switched ON.
    - Check battery charge.
    - Ensure you are pressing the correct button for the laser pointer.

- **Interference or limited range:**

    - Ensure there are no large metallic objects or other wireless devices causing interference between the presenter and the receiver.
    - Reduce the distance between the presenter and the USB receiver.
