De'Longhi TRH0715CA

De'Longhi Oil Filled Radiant Heater User Manual

Model: TRH0715CA | Brand: De'Longhi

Product Overview

The De'Longhi TRH0715 Oil Filled Radiant Heater is designed to effectively and quietly heat any room. It provides maximum radiant heat while maintaining a low surface temperature, making it suitable for households with children or pets. The intuitive control panel allows for easy adjustment of temperature and heat settings, promoting energy-efficient operation. An anti-freeze function automatically activates the heater if the room temperature falls below 44 degrees F (6.7 degrees C), helping to prevent frozen pipes. Its durable metal construction, rounded design, and thermal cut-off feature ensure safe and reliable performance.

Important Safety Information

Please read and understand all safety warnings and instructions before using this appliance to prevent fire, electric

shock, injury to persons, or property damage.

- **Thermal Cut-off:** The heater is equipped with a thermal cut-off function that automatically turns the unit off if it starts to overheat, ensuring safety.
- **Low Surface Temperature:** The exclusive thermal slot design maximizes heat flow into the room while maintaining a low surface temperature, reducing the risk of burns.
- **Enclosed Heating Elements:** Features fully enclosed heating elements for enhanced safety.
- **Gently Rounded Design:** The unit's design minimizes sharp edges, contributing to overall safety.
- **Stable Base:** The comfort hold handle paired with exclusive smart snap wheels provides a stable base and easy movement.
- **Permanently Sealed Oil Reservoir:** The diathermic oil reservoir is permanently sealed and never needs refilling, eliminating potential leaks.

Setup and Installation

The De'Longhi Oil Filled Radiant Heater requires no complex installation. It is designed for out-of-the-box use. Simply remove it from its packaging, ensure the wheels are properly extended and locked into place, and position it on a stable, level surface away from flammable materials.

- **Unpacking:** Carefully remove the heater from its packaging. Retain packaging for future storage or transport.
- **Wheel Assembly:** The exclusive smart snap wheels are built-in for convenience. Ensure they are fully extended and securely locked for stability.
- **Placement:** Place the heater on a firm, level surface. Ensure there is adequate clearance from walls, furniture, and curtains to allow for proper heat circulation and prevent fire hazards. Do not place the heater directly under a power outlet.
- **Power Connection:** Plug the heater directly into a 120V AC, 15 Amp grounded wall outlet. Do not use extension cords or power strips.

Operating Instructions

The De'Longhi TRH0715 features simple controls for intuitive operation.

Controls:

- **Thermostat Dial:** Adjusts the desired room temperature. Turn clockwise to increase heat, counter-clockwise to decrease.
- **Power Settings (Switches):** The heater offers three heat settings to customize your heating needs and optimize energy-efficient operation.
  - **MIN:** Low heat setting.
  - **MED:** Medium heat setting.
  - **MAX:** High heat setting (1500 watts).
- **Anti-Freeze Function:** When the temperature dips below 41 degrees F (5 degrees C), the Anti-freeze setting automatically switches on the heater to help prevent frozen pipes, especially in basements or vacation homes.
- **ComforTemp Mode:** This mode optimizes energy consumption by automatically selecting the ideal power setting based on the thermostat setting, maintaining a comfortable temperature efficiently.

First Use:

Upon first use, a slight odor may be noticeable. This is normal and will dissipate quickly as the heater burns off manufacturing residues. Ensure the room is well-ventilated during the initial operation.

Maintenance and Care

The De'Longhi Oil Filled Radiant Heater is designed for low maintenance and durability.

- **Cleaning:** Always unplug the heater from the electrical outlet and allow it to cool down completely before cleaning. Wipe the exterior surfaces with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Oil Reservoir:** The diathermic oil reservoir is permanently sealed and never needs refilling or replacement. This ensures a long lifespan and hassle-free operation.
- **Storage:** If storing the heater for an extended period, clean it thoroughly and store it in a cool, dry place. It is recommended to use the original packaging to protect it from dust and damage.
- **Durable Construction:** High-quality steel assembly and a specialized multilayered painting process provide a complete, corrosive-resistant finish, ensuring the heater's longevity.

Troubleshooting

If you encounter any issues with your De'Longhi Oil Filled Radiant Heater, please refer to the following common

troubleshooting tips. For more detailed information or persistent problems, consult the full user manual (link provided in product documentation) or contact customer support.

- **Heater Not Turning On:** Ensure the unit is securely plugged into a working electrical outlet. Check if the thermostat dial is set to a temperature higher than the current room temperature. Verify that the power switches are in the 'ON' position.
- **No Heat Output:** Confirm that the power switches are engaged for the desired heat setting (MIN, MED, or MAX). Adjust the thermostat to a higher setting. Allow sufficient time for the oil to heat up and radiate warmth, as oil-filled heaters warm gradually.
- **Unit Overheating/Shutting Off:** The thermal cut-off safety feature may have activated. Unplug the unit and allow it to cool down for at least 30 minutes. Check for any obstructions around the heater that might be blocking airflow. Ensure it is placed on a stable, level surface.
- **Unusual Odor on First Use:** A slight odor is normal during the first few hours of operation as manufacturing residues burn off. Ensure adequate ventilation. This should dissipate with continued use.

Specifications

Feature	Detail
Brand	De'Longhi
Model Number	TRH0715CA
Special Feature	Oil-Filled Radiator Space Heater
Color	Light Gray
Form Factor	Pedestal
Indoor/Outdoor Usage	Indoor
Product Dimensions	13.78"D x 5.9"W x 24.8"H
Recommended Uses	Residential
Mounting Type	Floor Mount
Room Type	Bedroom, Home Office, Study Room
Heating Coverage	250 square feet
Burner Type	Radiant
Fuel Type	Electric
Number of Speeds	1
Voltage	120 Volts
Amperage	12.5 Amps
Max Temperature Setting	5 Degrees Fahrenheit (Note: This likely refers to the anti-freeze activation point, not max heat)

Item Weight	23.4 pounds
Assembly Required	No
Included Components	Radiant Heater
