SentrySafe KB25

SentrySafe KB-25 Key Box Instruction Manual

Model: KB-25 | Brand: SentrySafe

1. INTRODUCTION

This manual provides instructions for the proper setup, operation, and maintenance of your SentrySafe KB-25 Key Box. The KB-25 is a wall-mountable key storage solution designed to organize and secure up to 25 keys. It features durable alloy steel construction and a privacy key lock mechanism.

2. SETUP AND INSTALLATION

2.1 Unpacking

Carefully remove the SentrySafe KB-25 Key Box from its packaging. Verify that all included components are present:

- SentrySafe KB-25 Key Box Unit
- Mounting Hardware (screws and anchors)
- Key Tags and Labels (25 sets)
- Operating Keys for the lock

2.2 Mounting the Key Box

The SentrySafe KB-25 is designed for wall mounting. Select a suitable location that is secure and easily accessible. The unit includes a bolt-down kit for installation.

1. Hold the key box against the desired wall surface and mark the locations for the mounting holes.
2. Drill pilot holes at the marked locations. Use an appropriate drill bit size for the included anchors.
3. Insert the wall anchors into the drilled holes, if necessary.
4. Align the key box with the holes and secure it to the wall using the provided screws. Ensure the box is firmly attached.

3. OPERATING INSTRUCTIONS

3.1 Locking and Unlocking

The KB-25 Key Box uses a privacy key lock. Insert one of the provided operating keys into the lock cylinder and turn

to lock or unlock the door. Always ensure the door is securely locked when not in use to maintain security.

3.2 Key Organization

The key box includes 25 color-coded key tags and labels to help you organize your keys efficiently.

- Attach each key to a key tag.
- Write a descriptive label on the tag to identify the key's purpose (e.g., "Front Door," "Office," "Vehicle").
- Hang the tagged keys on the internal hooks. Utilize the different tag colors to categorize keys for easier identification.

4. MAINTENANCE

To ensure the longevity and proper function of your SentrySafe KB-25 Key Box, follow these maintenance guidelines:

- **Cleaning:** Wipe the exterior with a soft, damp cloth. Avoid abrasive cleaners or solvents that could damage the enamel finish.
- **Lock Care:** Periodically check the lock mechanism for smooth operation. If the lock becomes stiff, a small amount of graphite lubricant can be applied to the keyhole. Do not use oil-based lubricants.
- **Mounting Security:** Regularly inspect the mounting hardware to ensure the key box remains securely fastened to the wall. Tighten screws if any looseness is detected.

5. TROUBLESHOOTING

If you encounter issues with your SentrySafe KB-25 Key Box, consider the following:

- **Key Lost/Lock Malfunction:** If an operating key is lost or the lock mechanism is not functioning correctly, do not attempt to force the lock. Contact SentrySafe customer support for assistance.
- **Mounting Instability:** If the key box feels loose on the wall, re-check the mounting screws and anchors. Ensure they are properly installed and tightened. If the wall material is compromised, consider remounting in a new location or reinforcing the existing one.

6. SPECIFICATIONS

Feature	Detail
Brand	SentrySafe
Model Number	KB-25
Product Dimensions (Exterior)	9.8" H x 7.4" W x 3.4" D
Capacity	25 Keys / 0.06 Cubic Feet
