Olympus TP-7 Telephone Pickup User Manual

Model: TP-7 (145051)

1. INTRODUCTION

The Olympus TP-7 Telephone Pickup is an accessory designed to facilitate the recording of telephone conversations. It connects to a voice recorder and captures audio from both sides of a phone call, making it suitable for documenting important discussions or interviews.

2. PACKAGE CONTENTS

Verify that all items are present in the package:

- TP-7 Telephone Pickup Microphone
- Adapter: Monaural 3.5 mm mini-plug to Stereo 3.5 mm mini-plug
- Adapter: Monaural 3.5 mm mini-plug to Monaural 2.5 mm mini-plug

3. PRODUCT OVERVIEW

The TP-7 is an economical and sensitive microphone designed for recording telephone conversations. Its key features include:

- Records both sides of a conversation.
- Compatible with both landline and cellular phones.
- Connects directly to a voice recorder's microphone input.
- Includes necessary adapters for various jack sizes.

4. SETUP

Follow these steps to set up your Olympus TP-7 Telephone Pickup:

1. **Connect to Recorder:** Locate the "MIC" (microphone) input jack on your voice recorder. Plug the 3.5 mm mini-plug of the TP-7 into this jack. If your recorder has a different size input, use the appropriate adapter provided.

2. **Position Earphone:** Place the earphone side of the TP-7 into your ear. Ensure it is comfortably seated. The microphone element is integrated into the earpiece, designed to pick up audio from your phone's earpiece when held against it.
3. **Prepare Recorder:** Ensure your voice recorder is powered on and set to record mode. Some recorders may require "plug-in power" to be enabled for external microphones. Refer to your recorder's manual for specific settings.

5. OPERATING INSTRUCTIONS

Once the TP-7 is set up, operating it is straightforward:

1. **Initiate Call:** Make or receive a phone call as you normally would.
2. **Hold Phone:** Hold your telephone handset or mobile phone's earpiece against the TP-7 earphone that is in your ear. The TP-7's integrated microphone will pick up the audio from your phone's speaker.
3. **Start Recording:** Begin recording on your voice recorder. The TP-7 will capture both your voice and the voice of

the person on the other end of the call.

4. **End Recording:** Stop recording on your voice recorder when the conversation is complete.

The TP-7 is designed to work with both traditional landline phones and modern cellular phones, providing flexibility for various recording needs.

6. TROUBLESHOOTING

- **No Recording or Low Volume:**
 - Ensure the TP-7 plug is fully inserted into the "MIC" jack of your recorder.
 - Check your voice recorder's settings. Some recorders may require "plug-in power" to be enabled for external microphones.
 - Verify the recording level on your voice recorder is set appropriately.
 - Confirm the phone's earpiece is held firmly against the TP-7 earphone.
- **Poor Audio Quality / Excessive Background Noise:**
 - The TP-7 is a live microphone. Minimize environmental noise during recording.
 - Ensure the phone's earpiece is clean and free from obstructions.
 - Adjust the distance between the phone's earpiece and the TP-7 earphone for optimal sound capture.
- **Adapters Not Fitting:**
 - Confirm you are using the correct adapter for your recorder's microphone input jack size (2.5mm or 3.5mm).
 - Ensure the adapter is fully connected to the TP-7 cable before plugging into the recorder.
