Brüder Mannesmann M29070

Mannesmann M29070 122-Piece Rolling Tool Box

Model: M29070 | Brand: Brüder Mannesmann

1. INTRODUCTION AND OVERVIEW

This instruction manual provides essential information for the safe and effective use of your Mannesmann M29070 122-Piece Rolling Tool Box. This comprehensive multi-tool trolley is designed for versatile use, featuring a telescopic handle for easy transport. The set includes a wide selection of sockets and bits made from durable chrome vanadium steel, ensuring reliability for various tasks. It is VPA-GS approved, signifying compliance with safety standards, and offers additional storage capacity for other tools. A 10-year warranty is provided for this product.

2. SETUP

Follow these steps for the initial setup of your tool box:

1. **Unpacking:** Carefully remove the tool box from its packaging. Inspect the case and its contents for any signs of damage that may have occurred during transit.
2. **Contents Verification:** Refer to the 'Specifications' section of this manual to ensure all 122 pieces are present and accounted for.
3. **Handle Extension:** To utilize the rolling feature, locate the release button on the telescopic handle. Press the button and pull the handle upwards until it fully extends and locks securely into place.
4. **Wheel Inspection:** Ensure the wheels are free to rotate and are not obstructed.

3. OPERATING INSTRUCTIONS

Proper operation ensures efficiency and extends the life of your tools:

1. **Opening the Tool Box:** Release the two latches located on the front of the tool box. Gently lift the lid to reveal the upper and lower compartments.

2. **Accessing Tools:** Tools are securely organized in custom-molded trays. Carefully remove the required tool from its designated slot. Always return tools to their correct positions after use.
3. **Using the Rolling Function:** With the telescopic handle extended, tilt the tool box slightly and pull it using the handle. The integrated wheels allow for easy transportation. Ensure your path is clear of obstacles to prevent tipping.
4. **General Tool Use:** Always select the appropriate tool for the specific task. Ensure a firm and safe grip on all tools. Apply force steadily and avoid excessive or sudden movements. For specialized tools, consult additional resources if needed.

4. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your tools:

1. **Cleaning:** After each use, wipe all tools clean of dirt, grease, or debris. Use a dry cloth or a mild, non-abrasive cleaning solution if necessary. Ensure tools are completely dry before storage to prevent rust.
2. **Lubrication:** Periodically apply a light machine oil to the moving parts of pliers, wrenches, and ratchets. This helps ensure smooth operation and prevents corrosion.
3. **Storage:** Always return tools to their designated slots within the tool box. This prevents tools from shifting, becoming damaged, or causing damage to the case. Store the tool box in a dry, secure location, away from direct sunlight, extreme temperatures, and excessive moisture.
4. **Inspection:** Regularly inspect all tools for signs of wear, damage, or corrosion. Check for loose handles, cracked plastic, or deformed metal. Replace or repair damaged tools immediately to maintain safety and functionality.

6. SPECIFICATIONS

Brand	Brüder Mannesmann
Model Number	M29070
Material	Alloy Steel (Chrome Vanadium Steel for sockets and bits)
Number of Pieces	122
Number of Compartments	2
GTIN (Global Trade Item Number)	797978323360
