Intex 56483NP

Intex Swim Center Family Pool Instruction Manual

Model: 56483EP

PRODUCT OVERVIEW

The Intex Swim Center Family Pool (Model 56483EP) is designed to provide summer fun for families, accommodating 2-3 children comfortably. Its durable 14-gauge vinyl material ensures longevity and ease of cleaning. The pool features wide double-ring sidewalls for enhanced stability and a rectangular shape to maximize swimming space. It has a water capacity of 198 gallons and measures 103 x 69 x 22 inches (L x W x H).

This pool is suitable for children aged 6 years and older. Adult supervision is required at all times when the pool is in use.

SETUP INSTRUCTIONS

1. **Site Selection:** Choose a flat, level surface free of sharp objects, rocks, or debris. Ensure the area can support the weight of the filled pool. Placing a tarp or ground cloth underneath is recommended to protect the pool's bottom and prevent grass damage.
2. **Inflation:** The pool features a double valve intake for efficient inflation. An air pump (not included) is recommended for quick setup. While a hairdryer on a cool setting or a leaf blower can be used as alternatives for inflation, ensure the air is cool to prevent damage to the vinyl.

Note: Some users have found success inflating the pool quickly using a hairdryer on a cool setting or a leaf blower, by holding the device firmly against the inflation valve. This method can inflate the pool in as little as 2-3 minutes. Always ensure the air is cool to avoid damaging the vinyl material.

3. **Filling with Water:** Once fully inflated, fill the pool with a standard garden hose. The pool has a water capacity of 198 gallons. Do not overfill; there is a maximum fill line to indicate the appropriate water level.

OPERATING INSTRUCTIONS

- **Supervision:** Always ensure constant and active adult supervision when children are in or near the pool. Drowning can occur quickly and silently.
- **Capacity:** The pool is designed for 2-3 children aged 6 and up. Its spacious design also allows adults to comfortably sit or relax in it.
- **Safety:** Do not dive or jump into the pool. Ensure children understand basic pool safety rules. The wide double-ring sidewalls provide stability, but caution should always be exercised.
- **Visibility:** The clear sides of the pool allow for easy visibility of children inside, enhancing safety and supervision.

MAINTENANCE

- **Cleaning:** The durable vinyl material is easy to clean. Regularly remove debris from the water using a pool skimmer. For thorough cleaning, drain the pool and wipe down the interior surfaces.
- **Water Treatment:** To maintain water quality, consider using small 1-inch chlorine tablets with a floating dispenser. Test strips can help monitor pH levels and chlorine concentration.
- **Draining:** The pool features a free-flow exhaust valve for easy draining. Alternatively, you can partially deflate the pool to facilitate water removal.
- **Storage:** When not in use, especially for extended periods or during colder months, it is recommended to cover the pool with a suitable pool cover to keep it clean and protected from environmental elements. After use, ensure the pool is completely dry before folding and storing to prevent mold or mildew.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Pool not holding air.	Puncture or leak in the vinyl.	Locate the leak and use the included repair patch to seal it. Ensure the area is clean and dry before applying the patch.
Difficulty inflating.	Improper use of inflation method or lack of appropriate pump.	Ensure the inflation valve is fully open and securely connected to the pump or air source. An electric air pump is highly recommended for efficient inflation.
Water appears dirty or cloudy.	Lack of regular cleaning or improper water chemistry.	Skim debris regularly. Consider using chlorine tablets and test water pH. Drain and refill with fresh water if heavily contaminated.

SPECIFICATIONS

- **Brand:** Intex
- **Model:** 56483NP (also referred to as 56483EP)
- **Product Dimensions (L x W x H):** 103 x 69 x 22 inches
- **Material:** Durable 14-gauge Vinyl
- **Water Capacity:** 198 Gallons (770 Liters)
- **Recommended Age:** 6+ Years Old
- **Item Weight:** 10.34 pounds (4.7 Kilograms)
- **Included Components:** Intex - 56483EP, Repair Patch
- **Assembly Required:** No (Inflation needed)
- **UPC:** 078257314638

WARRANTY AND SUPPORT

The Intex Swim Center Family Pool comes with a **30-day limited warranty**. For detailed warranty information, product support, or to download the full user manual in PDF format, please refer to the official Intex website or the provided documentation.
