## MAINTENANCE

To maintain the appearance of your model, periodically dust it gently with a soft, dry brush or a microfiber cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the paint and plastic surfaces. If necessary, a slightly damp cloth can be used for stubborn dust, followed by immediate drying.

## TROUBLESHOOTING (ASSEMBLY TIPS)

- **Parts Not Fitting:** Ensure parts are correctly oriented and that any excess plastic from the sprue gates has been completely removed. Dry-fit parts before applying cement.
- **Paint Issues:** If paint is not adhering properly, ensure surfaces are clean and free of oils. Apply thin, even coats rather than one thick coat.
- **Decal Application:** Use decal setting solutions for better adhesion and to conform decals to curved surfaces.
- **Missing Parts:** Double-check the runners and packaging. If a part is genuinely missing, contact Tamiya customer support.
