Grote 93610

Grote 93610 Resealable License Light Protective Lens Cap User Manual

Model: 93610

Introduction

This manual provides essential instructions for the installation, operation, and maintenance of the Grote 93610 Resealable License Light Protective Lens Cap. Please read this manual thoroughly before use to ensure proper function and longevity of the product.

Product Overview

The Grote 93610 is a protective lens cap designed for license lights, specifically compatible with Grote 60001 series lights. It features a resealable design and is constructed from durable plastic, offering protection and maintaining the integrity of the license plate illumination system.

Figure 2: Interior view of the Grote 93610 Resealable License Light Protective Lens Cap. This image shows the hollow interior of the lens cap, designed to fit over a license light, and highlights the molded features for secure attachment.

Package Contents

- 1 x Grote 93610 Resealable License Light Protective Lens Cap

Installation Instructions

The Grote 93610 lens cap is designed for straightforward installation. No assembly of the lens cap itself is required.

1. **Prepare the License Light:** Ensure the existing license light (e.g., Grote 60001 series) is clean and free from debris.
2. **Align the Lens Cap:** Position the Grote 93610 lens cap over the license light.
3. **Secure the Cap:** Gently press the lens cap onto the license light housing. The housing is designed to snap firmly into the molded o-ring of the lens cap, creating a secure and resealable fit.
4. **Verify Fit:** Confirm that the lens cap is securely attached and properly seated to ensure its waterproof feature is effective.

Note: This product is a protective lens cap and does not include the light source itself. It is intended to cover and protect an existing license light.

Operation

The Grote 93610 is a passive protective component. Once installed, it operates by shielding the license light from

environmental elements such as dirt, moisture, and minor impacts. Its resealable design allows for easy removal and reattachment for maintenance or bulb replacement of the underlying license light.

Maintenance

- **Cleaning:** Periodically clean the lens cap with a soft cloth and mild soap and water to remove dirt and grime. Avoid abrasive cleaners that could scratch the plastic.
- **Inspection:** Regularly inspect the lens cap for any signs of damage, cracks, or loose fit. A damaged or improperly seated cap may compromise its protective capabilities.
- **Resealing:** If the cap is removed for any reason, ensure it is resealed firmly back onto the license light housing to maintain its waterproof integrity.

Troubleshooting

Problem	Possible Cause	Solution
Lens cap is loose or falls off.	Improper installation; damaged o-ring or housing.	Ensure the cap is pressed firmly until it snaps into place. Inspect the o-ring and housing for damage. Replace if necessary.
Moisture or dirt inside the cap.	Cap not properly sealed; damaged cap or o-ring.	Remove the cap, clean the interior and the license light. Reinstall ensuring a tight seal. Inspect for cracks or damage and replace if found.

Specifications

Model Number:	93610
Brand:	Grote
Product Type:	Auto Part (Protective Lens Cap)
Material:	Plastic
Lens Color:	Clear
Special Feature:	Waterproof, Resealable
Dimensions (L x W x H):	2.54 x 2.54 x 2.54 inches
