Ford XL-10

Ford Genuine XL-10 Mini-Vent Window Lube - 4 oz.

Brand: Ford | **Model:** XL-10

Product Overview

The Ford Genuine XL-10 Mini-Vent Window Lube is a durable silicone-based lubricant specifically formulated to reduce sliding efforts on mini-vent windows. This product is designed to ensure smooth operation and extend the life of your vehicle's mini-vent window mechanisms.

Setup and Preparation

Before applying the lubricant, ensure the mini-vent window area is clean and free from dirt, dust, or old residue. Use a clean cloth to wipe down the tracks and any moving parts. For best results, apply in a well-ventilated area.

Operating Instructions

1. **Shake Well:** Before each use, shake the bottle thoroughly to ensure the lubricant is well-mixed.
2. **Apply Sparingly:** Apply a small, even amount of the XL-10 lubricant directly onto the sliding tracks and pivot points of the mini-vent window. Avoid over-application.
3. **Distribute Evenly:** Open and close the mini-vent window several times to help distribute the lubricant evenly across all moving surfaces.
4. **Wipe Excess:** Use a clean, dry cloth to wipe away any excess lubricant from visible surfaces to prevent dirt accumulation.
5. **Reapply as Needed:** Reapply the lubricant periodically, or when you notice increased friction or difficulty in operating the mini-vent window.

Maintenance and Storage

- **Storage:** Store the Ford Genuine XL-10 Mini-Vent Window Lube in a cool, dry, and well-ventilated place. Keep the container tightly closed when not in use.
- **Temperature:** Avoid storing in extreme temperatures, both hot and cold, to maintain product efficacy.
- **Spill Cleanup:** In case of spills, absorb with an inert material (e.g., sand, earth, vermiculite) and place in a suitable container for disposal.
- **Child Safety:** Keep out of reach of children and pets.

Troubleshooting

Problem	Possible Cause	Solution
Window still sticks or is difficult to move.	Insufficient application, old residue, or mechanical issue.	Ensure tracks are clean before application. Reapply lubricant, ensuring even coverage. If problem persists, inspect for mechanical damage to the window mechanism.
Excess residue after application.	Over-application of lubricant.	Wipe away excess lubricant immediately with a clean, dry cloth. Apply sparingly in the future.
Lubricant not lasting long.	Environmental factors (e.g., dust, water exposure) or heavy use.	Increase frequency of application as needed. Ensure the window area is kept as clean as possible.

Specifications

Brand	Ford
Model	XL-10
Material	Silicone
Liquid Volume	4 Fluid Ounces (118 mL)
Item Weight	0.3 Pounds (approx. 4.8 ounces)
Package Information	Bottle
Product Dimensions	4.3 x 1.5 x 1.3 inches
