Ford 6U5Z-17D696-C

Ford Genuine 6U5Z-17D696-C Side Mirror Motor OEM Instruction Manual

Product Overview

This manual provides essential information for the installation, operation, and maintenance of your Ford Genuine 6U5Z-17D696-C Side Mirror Motor OEM. This genuine Ford part is designed to ensure your vehicle maintains its original appearance and value.

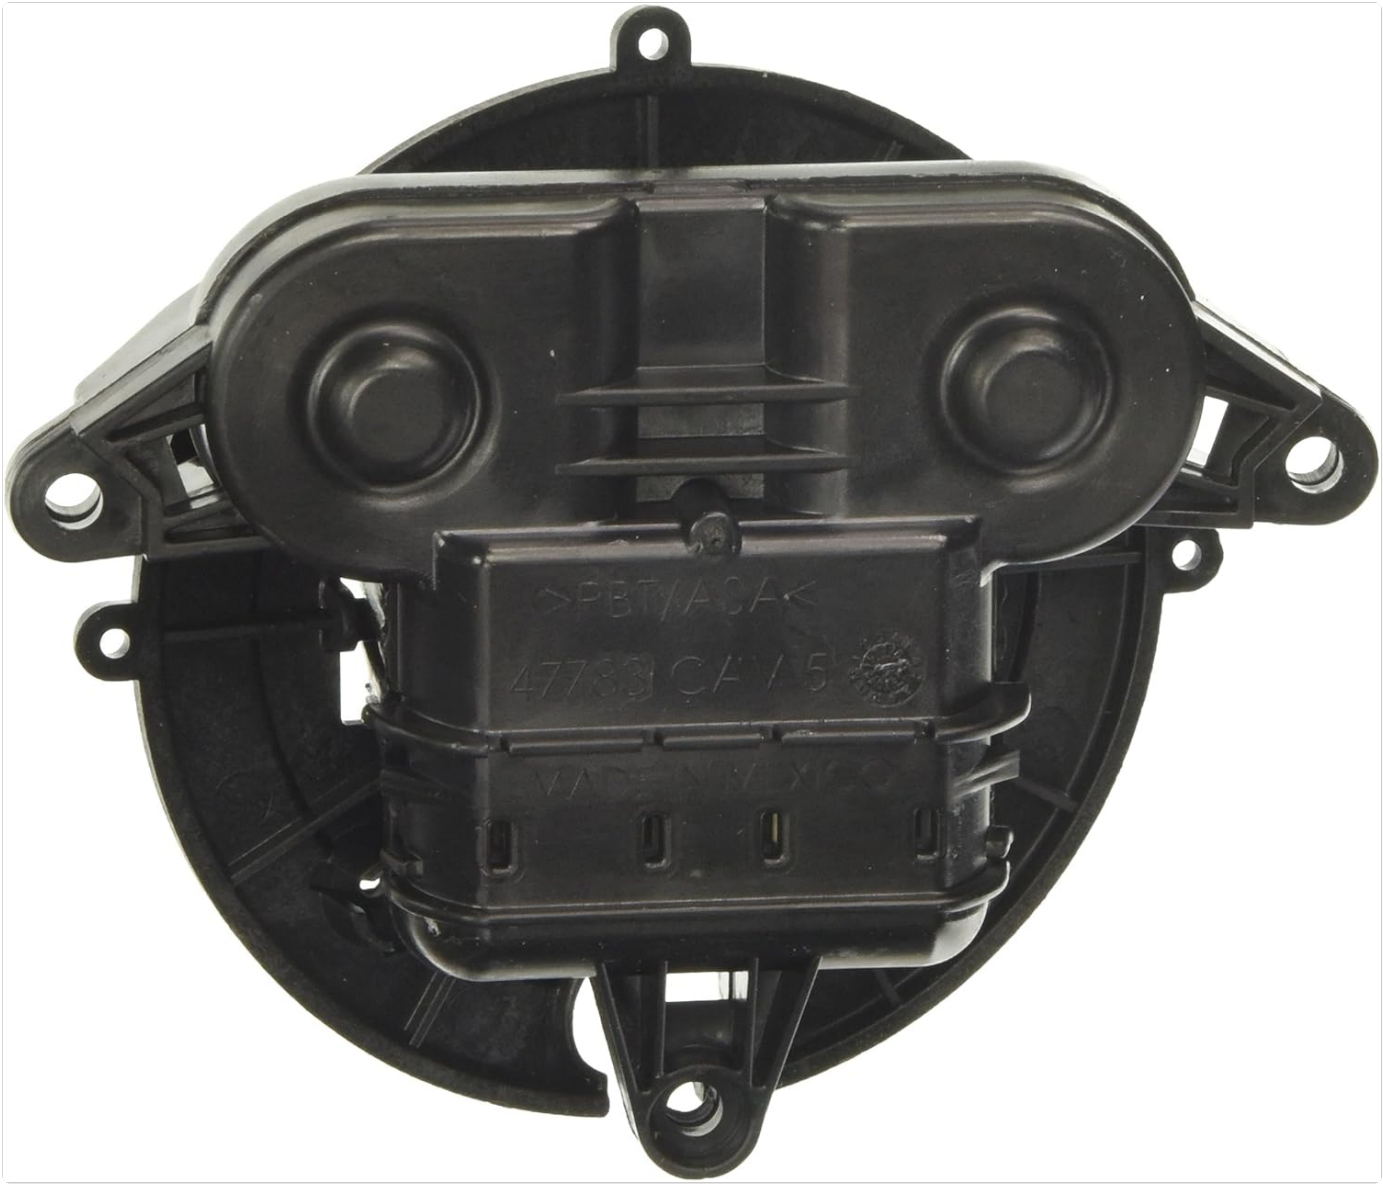

Image: A top-down view of the black Ford Genuine 6U5Z-17D696-C Side Mirror Motor. The motor unit is compact, with two circular protrusions on top, likely for gear mechanisms, and a rectangular base with visible part numbers and "MADE IN MEXICO" text. It is designed to fit within a side mirror assembly.

What's in the Box

- Genuine Ford Side Mirror Motor OEM BRAND NEW

Setup and Installation

This section outlines the general procedure for installing the side mirror motor. Professional installation is recommended.

Safety Precautions

- Ensure the vehicle's ignition is off and the battery is disconnected before beginning any work.
- Wear appropriate personal protective equipment, such as gloves and eye protection.
- Refer to your vehicle's specific service manual for detailed mirror assembly removal and installation procedures.

Installation Steps (General)

1. Carefully remove the existing side mirror assembly from the vehicle, following manufacturer guidelines.
2. Disconnect the old mirror motor and associated wiring.

3. Install the new Ford Genuine 6U5Z-17D696-C Side Mirror Motor into the mirror housing. Ensure all mounting points align correctly.
4. Reconnect the electrical wiring harness to the new motor.
5. Test the motor's functionality before reassembling the mirror and reattaching it to the vehicle.
6. Reassemble the mirror housing and reattach the complete mirror assembly to the vehicle.
7. Reconnect the vehicle's battery.

Operating Instructions

The Ford Genuine 6U5Z-17D696-C Side Mirror Motor operates in conjunction with your vehicle's existing mirror adjustment controls. Once installed, the motor enables the electric adjustment of the side mirror glass.

Mirror Adjustment

Use the vehicle's interior mirror control switch to adjust the mirror glass position. The motor will respond to inputs for horizontal and vertical movement.

Note: As per customer feedback, this motor may operate in steps, requiring multiple presses of the control for continuous movement, and may not support memory functions if your original mirror had them.

Maintenance

The Ford Genuine 6U5Z-17D696-C Side Mirror Motor is designed for long-term reliability and typically requires minimal maintenance.

- Keep the mirror assembly clean and free from debris.
- Avoid applying excessive force to the mirror glass, which could damage the internal motor mechanism.
- If the mirror movement becomes sluggish or noisy, inspect for obstructions or consult a qualified technician.

Troubleshooting

Problem	Possible Cause	Solution
Mirror does not move	No power to motor; faulty wiring; motor malfunction	Check electrical connections; inspect wiring for damage; consult a professional for diagnosis.
Mirror moves intermittently or in steps	Normal operation for this specific motor (as per some vehicle models); minor electrical issue	This behavior may be normal. If persistent or worsening, check connections.
Unusual noise during operation	Obstruction; internal motor issue	Inspect for obstructions around the mirror glass; if noise persists, professional inspection is recommended.

Specifications

- **Model:** 6U5Z-17D696-C
- **Brand:** Ford
- **Manufacturer:** Ford
- **Item Weight:** 4.6 ounces
- **Package Dimensions:** 4.96 x 3.7 x 1.89 inches

- **Position:** Right
- **Lift Type:** Motor
- **Material:** Glass
- **Speed:** 1450 RPM
- **Country of Origin:** United States
