Intex 56475EP

Intex Swim Center Family Lounge Inflatable Pool User Manual

Model: 56475EP | Brand: Intex

1. Introduction

Welcome to the Intex Swim Center Family Lounge Inflatable Pool. This manual provides essential information for the safe and proper use, setup, and maintenance of your new inflatable pool. Please read all instructions carefully before assembly and use to ensure a safe and enjoyable experience for all users.

Safety Information

WARNING: CHOKING HAZARD - Small parts. Not for children under 3 years.
Always supervise children in and around the pool. Never leave children unattended. Ensure the pool is placed on a level surface free of sharp objects. Do not dive or jump into the pool. Empty and store the pool when not in use to prevent water accumulation and potential hazards.

2. Product Overview

The Intex Swim Center Family Lounge Pool is designed for family fun and relaxation. Its unique shape provides ample play room, and the wide sidewalls offer enhanced comfort and stability. The pool features four built-in seats with backrests and two convenient drink holders, making it ideal for lounging. It has an approximate inflated size of 90 inches L x 90 inches W x 26 inches H and a water capacity of 262 gallons (at 14 inches wall height).

Key Features:

- Approximate inflated size: 90” L x 90” W x 26” H
- Water Capacity: 262 gallons (14” of wall height)

- Includes 4 built-in seats with backrests
- Features 2 drink holders
- Drain plug included for convenience

3. Setup

Preparation:

1. Choose a flat, level surface free of rocks, sharp objects, or debris.
2. Clear the area of any potential hazards.
3. Lay a ground cloth or tarp (not included) under the pool for added protection.

Inflation:

1. Unfold the pool and spread it out on the prepared surface.
2. Locate the inflation valves on the pool's chambers. The pool has multiple air chambers for stability.

3. Using an air pump (not included), inflate each chamber until it is firm to the touch but not over-inflated. Over-inflation can cause damage.
4. Ensure the four built-in seats and backrests are also properly inflated.
5. Securely close all inflation valves after inflation.

4. Operating the Pool

Filling the Pool:

1. Once the pool is fully inflated and all valves are closed, begin filling it with water using a garden hose.
2. Fill the pool to the indicated fill line, which is approximately 14 inches of wall height, or until the water capacity reaches 262 gallons. Do not overfill.
3. Ensure the pool walls remain stable and upright as it fills.

Using the Features:

- The four built-in seats with backrests are designed for comfortable lounging within the pool.
- Utilize the two integrated drink holders to keep beverages conveniently accessible while relaxing.

5. Maintenance

Cleaning:

- Regularly remove debris such as leaves and insects from the water.
- For light cleaning, use a soft cloth and mild soap with water. Rinse thoroughly.
- Avoid using harsh chemicals or abrasive cleaners, as they can damage the PVC material.

Draining:

- To drain the pool, locate the drain plug at the bottom of the pool.
- Remove the drain plug and allow the water to empty completely. Direct the water to a suitable drainage area.

- Once drained, wipe the interior and exterior surfaces dry with a clean cloth.

Image: A close-up view highlighting key features of the Intex pool, including the inflatable seats, cup holders, and the drain plug, illustrating their design and location for user convenience.

Storage:

- Ensure the pool is completely dry before deflating and folding.
- Deflate all air chambers by opening the valves.
- Fold the pool neatly and store it in a cool, dry place, away from direct sunlight and extreme temperatures.
- Keep it away from pests and sharp objects.

6. Troubleshooting

Common Issues and Solutions:

- **Pool Deflates Quickly:** Check all inflation valves to ensure they are securely closed. Inspect the pool surface for any punctures or small holes.
- **Finding Leaks:** Mix a small amount of dish soap with water and spray or wipe the soapy solution over the suspected area. Bubbles will form where air is escaping.
- **Repairing Punctures:** Use the included repair patch. Clean and dry the area around the puncture. Peel off the backing from the patch and firmly press it over the hole, ensuring no air bubbles are trapped underneath. Allow several hours for the patch to bond before re-inflating.
- **Uneven Water Level:** Ensure the ground surface where the pool is placed is completely level. An uneven surface can cause stress on the pool structure and lead to premature wear.

7. Specifications

Specification	Detail
Brand	Intex
Model Number	56475EP
Product Dimensions (Inflated)	90"L x 90"W x 26"H
Shape	Oval
Material	Polyvinyl Chloride (PVC)
Water Capacity	262 Gallons (at 14" wall height)
Age Range (Description)	3+ years
Occupancy	4 person
Item Weight	14 Pounds
Assembly Time	10 minutes

8. What's in the Box

Your Intex Swim Center Family Lounge Inflatable Pool package includes the following components:

- Inflatable Pool
- Repair Patch
