## Philos 3701

# Philos 3701 Plastic Roulette Set Instruction Manual

Model: 3701 | Brand: Philos

## INTRODUCTION

Thank you for choosing the Philos 3701 Plastic Roulette Set. This manual provides essential information for assembling, playing, and maintaining your roulette game. The game of roulette has captivated players for centuries with its simple rules and exciting gameplay. This set is designed for family entertainment and offers a classic roulette experience.

## SAFETY INFORMATION

**WARNING:** This product is not suitable for children under 3 years of age due to small parts which may present a choking hazard. Adult supervision is recommended during play.

## COMPONENTS LIST

Your Philos 3701 Roulette Set includes the following components:

- 1 x Plastic Turntable (Roulette Wheel), diameter 300 mm
- 1 x Felt Game Board, approximately 700 x 400 mm
- 2 x Metal Balls
- 100 x Playing Chips
- 1 x Croupier Rake

Image: All components of the Philos 3701 Roulette Set, including the plastic turntable, felt mat, chips, and rake, neatly arranged in the product box.

## SETUP

1. **Unpack Components:** Carefully remove all items from the product packaging.
2. **Position Felt Game Board:** Unroll the felt game board and lay it flat on a stable surface, such as a table. Ensure there are no creases that could interfere with gameplay.
3. **Place Roulette Wheel:** Position the plastic roulette turntable on the table next to the felt game board. Ensure it is stable and level.
4. **Prepare Chips:** Distribute the 100 playing chips among the players. Players can decide on the value of each chip before starting the game.
5. **Ready the Balls and Rake:** Place the metal balls and the croupier rake within easy reach of the player designated as the croupier.

## OPERATING INSTRUCTIONS (HOW TO PLAY ROULETTE)

Roulette is a game of chance where players bet on where a small ball will land on a spinning wheel. Here are the basic steps:

1. **Designate a Croupier:** One player acts as the croupier (dealer) for the round. The croupier manages the wheel, calls bets, and handles payouts.
2. **Place Bets:** Players place their chips on the felt game board, indicating their chosen bets. Bets can be placed on individual numbers, groups of numbers, colors (red/black), odd/even, or high/low numbers.
3. **Spin the Wheel:** Once all bets are placed, the croupier spins the roulette wheel in one direction and then launches a small metal ball into the wheel in the opposite direction.
4. **"No More Bets":** As the ball begins to slow, the croupier announces "No more bets." No further chips can be placed after this announcement.
5. **Ball Lands:** The ball eventually loses momentum and falls into one of the numbered pockets on the wheel.
6. **Determine Winner:** The croupier announces the winning number and color.
7. **Payouts:** The croupier uses the rake to clear all losing bets from the table and then pays out winning bets according to standard roulette odds.
8. **Next Round:** A new round begins, and the role of the croupier can rotate among players if desired.

## MAINTENANCE

- **Cleaning the Wheel:** Wipe the plastic roulette wheel with a soft, damp cloth. Avoid abrasive cleaners that could scratch the surface.
- **Cleaning the Felt Mat:** The felt game board can be gently brushed to remove dust or lint. For spills, dab with a clean, damp cloth. Do not machine wash.
- **Storing Components:** Store all components in their original packaging or a suitable container to prevent loss or damage. Keep the felt mat rolled or folded neatly to avoid permanent creases.
- **Metal Balls:** Keep the metal balls clean and free of debris to ensure smooth spinning.

## Troubleshooting

- **Ball Not Settling:** If the metal ball frequently fails to settle into a numbered pocket or seems to favor certain numbers, ensure the roulette wheel is placed on a perfectly level surface. Check for any obstructions or debris within the wheel's track.
- **Chips Sticking:** If chips stick together, ensure they are clean and dry. Avoid storing them in humid conditions.
- **Felt Mat Creases:** If the felt mat has persistent creases, try laying it flat under a heavy, flat object for a period, or gently steaming it from a distance (test on an inconspicuous area first).

## Specifications

|                                |                                                                   |
