Welcome to Pokétopia! Pokémon Battle Revolution is a video game designed for the Nintendo Wii console. ## SETUP

1. **Insert Game Disc:** Carefully insert the Pokémon Battle Revolution game disc into your Nintendo Wii console's disc slot. Ensure the disc is clean and free of any visible scratches or smudges.

2. **Power On Console:** Power on your Nintendo Wii console. Navigate to and select the Pokémon Battle Revolution channel from the Wii Menu to start the game.
3. **DS System Preparation (Optional):** If you intend to link with Pokémon Diamond or Pokémon Pearl, ensure your Nintendo DS system(s) are powered on and positioned within wireless range of your Wii console.

## OPERATING

---

### Basic Gameplay

The core gameplay revolves around strategic Pokémon battles conducted within various Colosseums. Utilize your strategic skills to select the most effective Pokémon for one-on-one or two-on-two battles to achieve victory.

### DS Battle Mode

This mode supports up to four players, allowing them to battle using their own Pokémon transferred from Pokémon Diamond or Pokémon Pearl. Each participant uses a Nintendo DS system as a controller, which replicates the battle interface found in the respective DS games. This mode requires a separate Nintendo DS system for each player.

### Linking with Pokémon Diamond and Pearl

You have the ability to transfer Pokémon that you have trained and raised in Pokémon Diamond and Pokémon Pearl directly into Pokémon Battle Revolution. This allows you to use your personalized team in the Wii battles. Establish a wireless connection between your Wii and DS systems to perform this transfer.

### Advanced 3-D Battles

Experience Pokémon battles with significantly enhanced 3-D graphics compared to previous console titles. The game also features full narration by the in-game announcer, providing a dynamic battle experience.

### Online Play

Connect with other players globally through the online play feature. You can engage in duels with other Battle Revolution fans by using your unique 12-digit friend code.

## MAINTENANCE

---

### Disc Care

- Always handle the game disc by its edges to avoid touching the playing surface.
- Store the disc in its original case when not in use to protect it from dust and scratches.
- If cleaning is necessary, gently wipe the disc from the center outwards using a soft, dry, lint-free cloth. Do not use abrasive materials or chemical cleaners.

### Console Care

- Ensure your Nintendo Wii console is placed in a well-ventilated area to prevent overheating during extended use.
- Avoid exposing the console or game disc to extreme temperatures, direct sunlight, or high humidity.

## TROUBLESHOOTING

---

### Game Not Loading

- Verify that the game disc is correctly inserted into the Wii console's disc slot.
- Inspect the disc for any visible dirt, fingerprints, or scratches. Clean the disc if necessary following the maintenance guidelines.
- Try restarting your Nintendo Wii console.
- If issues persist, ensure your console's disc drive is functioning correctly with other games.

### Connectivity Issues (DS Link / Online)

- For DS Battle Mode or linking with Pokémon Diamond/Pearl, confirm that all Nintendo DS systems are powered on and within close proximity to the Wii console.
- For online play, verify your internet connection settings on the Wii console. Double-check the accuracy of any entered friend codes.

### Region Compatibility

Please be aware that video games are often region-locked. Ensure that your Pokémon Battle Revolution game disc's region (e.g., NTSC-U/C for North America, PAL for Europe) matches the region of your Nintendo Wii console. An incompatible region disc will not function on your console.
