# MOP C-System Curl Defining Cream (Model I0021999) User Manual

## 1. INTRODUCTION

This manual provides instructions for the proper use and care of the MOP C-System Curl Defining Cream. This product is designed to enhance and define natural curls, reduce frizz, and provide antioxidant support. For optimal results, please read this manual thoroughly before first use.

## 2. PRODUCT OVERVIEW AND BENEFITS

The MOP C-System Curl Defining Cream is formulated to provide smooth definition for curls without leaving a sticky residue. It helps maintain curl integrity throughout the day and offers protection against frizz.

### Key Benefits:

- **Curl Definition:** Provides smooth, defined curls without tackiness.
- **Frizz Protection:** Helps protect hair from frizz throughout the day.
- **Antioxidant Support:** Infused with citrus for antioxidant benefits.
- **Color Preservation:** Includes a UV shield to help preserve hair color.
- **Nourishing Ingredients:** Contains Vitamin C, Coconut Oil extracts, and other fatty acids.

### 3. USAGE INSTRUCTIONS

#### Preparation:

1. Ensure hair is damp, preferably after washing and towel-drying.
2. Dispense a small amount of product into your hands. The amount needed will vary based on hair length and thickness. Start with a pea-sized amount and adjust as necessary.
3. Rub palms together to emulsify the cream, ensuring even distribution on your hands.

#### Application:

1. Distribute the emulsified cream evenly through your damp hair, focusing on the mid-lengths and ends where curl definition is desired.

2. Gently scrunch hair upwards to encourage curl formation.
3. Allow hair to air dry naturally or use a diffuser on a low heat setting for added volume and faster drying. Avoid touching hair excessively while it dries to prevent frizz.

## 4. MAINTENANCE AND STORAGE

- Store the product in a cool, dry place away from direct sunlight.
- Ensure the cap is securely closed after each use to prevent drying out.
- Keep out of reach of children.

## 5. TROUBLESHOOTING

### Common Issues and Solutions:

- **Hair feels sticky or crunchy:** This usually indicates too much product was applied. Reduce the amount used in subsequent applications. Start with a very small quantity and add more if needed.

- **Curls lack definition:** Ensure the product is evenly distributed through damp hair. Scrunching technique can also impact definition.
- **Frizz persists:** Make sure hair is not over-toweled before application. Avoid touching hair while it is drying.

## 6. SPECIFICATIONS

Feature	Detail
<b>Brand</b>	MOP
<b>Model Number</b>	I0021999
<b>Product Dimensions</b>	1.5 x 2.25 x 7.63 inches
<b>Item Weight</b>	5.64 ounces
<b>Volume</b>	5.1 Fluid Ounces (150mL)
