REVLON RV444C

Revlon All-In-One Style Hot Air Kit Instruction Manual

Model: RV444C

PRODUCT OVERVIEW

The Revlon All-In-One Style Hot Air Kit is designed to curl and volumize hair, providing a salon-styled finish. This 3-piece set features advanced technology for efficient and gentle hair styling.

REVLON ALL-IN-ONE STYLE KIT

The REVLON® trademark is used under license from Revlon. ©2020 Revlon. All rights reserved.

Key features include:

- **IONIC TECHNOLOGY:** Designed to reduce frizz and enhance shine for healthy-looking hair.
- **CERAMIC COATING:** Aids in reducing damage from over-styling by distributing heat evenly, facilitating quick and easy styling.
- **EASY OPERATION:** Features a curl release button that allows the barrel to rotate, preventing hair tangles. Includes two heat and speed settings, along with a cool setting.
- **VERSATILE KIT:** Comes with interchangeable 1-inch and 1-1/2-inch barrels, both equipped with ceramic coating, suitable for various hair types.

TECHNOLOGY

Advanced Ionic Technology[®]
gives you the power to create a salon-styled finish. Less frizz, for shiny, healthy-looking hair.

3X Ceramic Coating
helps reduce damage from over-styling with even heat distribution making styling fast and easy.

SETUP AND ASSEMBLY

Before first use, ensure all packaging materials are removed. The kit includes two interchangeable barrels. Follow these steps to attach or remove a barrel:

1. Ensure the unit is **NOT** hot and is turned off.
2. Hold the hot air styler with both hands: one hand wrapping the handle, the other wrapping the barrel.
3. Simultaneously press the "curl release" button.
4. Keep pressing the "curl release" button and pull the barrel apart from the handle to remove.
5. To reattach a barrel, simply align it with the handle and insert until a "click" is heard, indicating it is securely in place.

HOW TO REMOVE THE BARREL

1. **Ensure unit is NOT hot and is turned off.** Hold your hot air with both of your hands. One hand wraps the handle. The other wraps the barrel.
2. Simultaneously, press the "curl release" button.
3. Keep pressing the "curl release" button and pull the barrel apart from the handle.
4. To reattach the barrel, simply align it with the handle and insert until a "click" is heard.

OPERATING INSTRUCTIONS

For optimal results and to prevent damage, always towel dry your hair before styling. This unit is not designed to dry fully wet hair.

1. Ensure the desired barrel (1" or 1-1/2") is securely attached.
2. Plug the appliance into a suitable electrical outlet.
3. Select the desired heat and speed setting using the switch on the handle. Options typically include Low, High, and Cool.
4. Section your towel-dried hair.
5. Place the hot air brush near the roots of a hair section and gently brush downwards, allowing the warm air to flow through the hair.
6. For curling or adding volume, wrap a section of hair around the barrel.
7. To release curls without tangling, hold the cool tip of the barrel with one hand and press the curl release button with the other. Manually rotate the barrel to unwind the hair.
8. Repeat for all sections of hair until desired style is achieved.
9. After use, turn off the appliance and unplug it from the outlet. Allow it to cool completely before storing.

CURL RELEASE (this hot air brush is NOT a spin/rotating brush)

1. Release curls by holding the cool tip with one hand.
2. Press the curl release button with the other hand.
3. Manually rotate the barrel to unwind the hair from the barrel.

MAINTENANCE

Proper maintenance ensures the longevity and performance of your Revlon Hot Air Kit.

- **Cleaning:** Ensure the appliance is unplugged and completely cool before cleaning. Wipe the exterior with a damp cloth. Do not immerse the unit in water.
- **Brush Care:** Regularly remove any tangled hair from the bristles of the barrels.
- **Storage:** Store the appliance in a cool, dry place. Do not wrap the cord around the appliance, as this can cause premature wear and breakage of the cord.

TROUBLESHOOTING

If you encounter issues with your Revlon All-In-One Style Hot Air Kit, refer to the following common solutions:

Problem	Possible Cause	Solution
Appliance does not turn on.	Not plugged in, power outlet issue, or internal fault.	Ensure the appliance is securely plugged into a working electrical outlet. Check the circuit breaker. If the problem persists, contact customer support.
Hair gets tangled in the barrel.	Incorrect use of curl release button or large hair sections.	Use the curl release button as instructed. Ensure hair sections are not too large when wrapping around the barrel.
Unit does not dry hair effectively.	Hair is too wet, or incorrect heat setting.	Always towel dry hair thoroughly before using the styler. Ensure a higher heat setting is selected if needed. This unit is for styling, not primary drying of fully wet hair.
