

TRIXIE 1318

Trixie 1318 Boot Liner Instruction Manual

Model: 1318

PRODUCT OVERVIEW

The Trixie 1318 Boot Liner is designed to protect your vehicle's boot area from dirt, pet hair, and moisture during pet transport. Made from durable, water-resistant polyester, it features high side panels and secure fastening mechanisms to ensure comprehensive coverage and stability.

Key features include:

- High side panels to protect boot trim.
- Velcro and nylon straps to prevent slipping.
- Protection against dirt and pet hair.
- Easy installation and removal.
- Water-resistant material.

SAFETY INFORMATION

Please read and understand all safety instructions before installing and using the Trixie 1318 Boot Liner.

- Ensure the boot liner is securely fastened to prevent movement during transit, which could distract the driver or injure pets.
- Do not obstruct the driver's view or interfere with vehicle controls.
- Always ensure pets are safely secured within the vehicle, ideally using a suitable pet carrier or safety harness, even when using the boot liner.
- Regularly inspect the liner for any damage that could compromise its protective function or safety.
- Keep packaging materials away from children and pets to avoid choking hazards.

PACKAGE CONTENTS

The Trixie 1318 Boot Liner package typically includes:

- 1 x Trixie 1318 Boot Liner (2.30 x 1.70 m)
- Velcro fastening strips

- Nylon straps with buckles for headrest attachment

SETUP AND INSTALLATION

Follow these steps to properly install the Trixie 1318 Boot Liner in your vehicle:

1. **Prepare the Boot Area:** Ensure your vehicle's boot is clean and free of debris before installation.
2. **Position the Liner:** Lay the boot liner flat in the boot of your car. The larger section should cover the floor, and the side panels should extend upwards along the boot walls. The flap designed to protect the bumper should hang over the edge of the boot opening.
3. **Secure to Headrests:** Locate the nylon straps with buckles. Attach these straps around the rear headrests of your back seats. Adjust the strap length to ensure the front edge of the liner is taut and covers the back of the seats effectively.
4. **Fasten Side Panels:** The liner features high side panels. Use the provided Velcro strips to secure these panels to the carpeted or fabric surfaces of your boot's side walls. Press firmly to ensure a strong adhesion.
5. **Adjust for Fit:** The liner is designed for a universal fit. Adjust its position and the tension of the straps to achieve the best coverage and stability for your specific vehicle model. The integrated metal rods (if present) can be gently shaped to conform to the boot's contours.

OPERATING AND USAGE

Once installed, the Trixie 1318 Boot Liner provides a protective barrier for your car's interior. It is primarily used for:

- Transporting pets, protecting against dirt, hair, and scratches.
- Carrying dirty or wet items, preventing stains and moisture damage to the boot carpet.
- The liner is designed with seat belt accessibility, allowing for the use of pet safety harnesses if your vehicle's boot has appropriate anchor points.

MAINTENANCE

To ensure the longevity and effectiveness of your Trixie 1318 Boot Liner, follow these maintenance guidelines:

- **Cleaning:** Due to its water-resistant polyester material, the liner can be easily cleaned. Wipe down with a damp cloth and mild detergent as needed. For heavier soiling, it can be hosed down and air-dried.
- **Drying:** Always ensure the liner is completely dry before folding or storing to prevent mildew.
- **Storage:** When not in use, the liner can be folded or rolled for compact storage.
- **Inspection:** Periodically check the straps, buckles, and Velcro fastenings for wear and tear. Replace if necessary to maintain secure installation.

TROUBLESHOOTING

If you encounter issues with your Trixie 1318 Boot Liner, consider the following:

- **Liner is slipping:**
 - Ensure all Velcro strips are firmly attached to the boot's carpeted surfaces.
 - Check that the nylon straps around the headrests are tightened sufficiently.
 - Verify the liner is correctly positioned and not bunched up.
- **Incomplete coverage:**
 - Adjust the liner's position to maximize coverage. The universal fit may require slight repositioning for optimal results in different vehicle models.
 - Ensure side panels are fully extended and secured.
- **Difficulty cleaning:**
 - For stubborn stains, a soft brush and a stronger, pet-safe fabric cleaner can be used, followed by thorough rinsing and drying.

SPECIFICATIONS

Model Number	1318
Dimensions (L x W)	2.30 x 1.70 m
Material	Polyester
Color	Black
Fit Type	Universal Fit
Item Weight	1.36 kg
Auto Part Position	Rear
