Cat Craft 12400101

Cat Craft Carpet Cat Scratching Post

Model: 12400101

INTRODUCTION

The Cat Craft Carpet Cat Scratching Post is designed to provide a dedicated and durable surface for your cat's natural scratching instincts. This post helps promote healthy nail maintenance and redirects scratching behavior away from household furniture. Featuring a sturdy base and an engaging spring toy, it offers both physical activity and mental stimulation for cats of all sizes.

SETUP AND ASSEMBLY

Your Cat Craft Carpet Cat Scratching Post is designed for easy assembly. Please follow the included instructions carefully to ensure proper setup and stability.

- Unpack all components from the packaging.
- Attach the scratching post to the base using the provided hardware. Ensure all connections are secure and tightened.
- Verify the spring toy is firmly attached to the top of the post.
- Place the assembled scratching post on a flat, stable surface in an area accessible to your cat.

DURA POST CAT SCRATCHER WITH SPRING TOY

Figure 1: Product Dimensions. The scratching post measures approximately 12 inches (L) x 10 inches (W) x 20 inches (H).

OPERATING INSTRUCTIONS

Encouraging your cat to use the scratching post is simple. Cats naturally seek out surfaces to scratch to shed outer claw layers, mark territory, and stretch their muscles.

- **Placement:** Position the scratching post in a prominent area where your cat frequently spends time or near furniture they tend to scratch.
- **Encouragement:** Gently guide your cat to the post. You can use catnip or dangle the attached spring toy to attract their attention.
- **Natural Behavior:** Allow your cat to explore and interact with the carpeted surface and the spring toy at their own pace. The 20-inch height allows for full stretching.

MAINTENANCE

Regular maintenance will help prolong the life of your Cat Craft Carpet Cat Scratching Post.

- **Cleaning:** Spot clean the carpeted surface as needed using a damp cloth and mild soap. Avoid saturating the material. Do not machine wash.
- **Inspection:** Periodically check the post for any loose parts or wear and tear. Tighten any screws if necessary.
- **Replacement:** If the scratching surface becomes excessively worn, replacement poles are available to ensure continued functionality and appeal for your cat.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Scratching post falls over easily.	Unstable placement or insufficient base weight for cat's force.	Ensure the post is on a flat, level surface. Consider placing it against a wall or in a corner for added stability. If your cat is particularly vigorous, you may need to add weight to the base (e.g., a heavy book or small sandbag placed discreetly).
Cat is not using the scratching post.	Unfamiliarity, preference for other surfaces, or location.	Try moving the post to a different location. Apply catnip to the post. Reward your cat with praise or treats when they interact with the post. Avoid forcing your cat to use it.
Spring toy detached.	Vigorous play or loose connection.	Reattach the spring toy firmly to the top of the post. Ensure it is securely twisted or clipped into place.

SPECIFICATIONS

Feature	Detail
Model Name	Carpet Cat Scratching Post with Toy
Model Number	12400101
Dimensions (L x W x H)	12.18" x 9.83" x 20.04" (30.94 cm x 24.97 cm x 50.90 cm)
