## Granite Ware 34700

# Granite Ware Coffee Boiler User Manual

Model: 34700

## INTRODUCTION

---

The Granite Ware Coffee Boiler is a versatile and durable enameled steel pot designed for brewing coffee, tea, or heating water. With a 3-quart (12-cup) capacity, it is suitable for both stovetop use and open campfires, making it ideal for home use, camping, and outdoor adventures. Its carbon steel core ensures rapid and even heat distribution for efficient brewing.

## SAFETY INFORMATION

---

- Always use oven mitts or potholders when handling the hot coffee boiler.
- Do not heat the boiler when it is empty, as this can damage the enamel coating.
- Exercise caution when using over an open flame; ensure stable placement to prevent tipping.

- Keep out of reach of children when in use and when hot.
- Do not drop the boiler on hard surfaces, as this may chip the enamel.
- This product is not intended for use in a microwave oven.

## SETUP

---

1. **Unpacking:** Carefully remove the coffee boiler from its packaging.
2. **Initial Cleaning:** Before first use, wash the coffee boiler thoroughly with warm, soapy water. Rinse completely and dry. This removes any manufacturing residues.

## Use and care

- Can be used directly to the fire
- Do not heat when empty
- Use oven mitts or potholders
- Do not drop on hard surface
- Do not use in a microwave

Ideal for camping, cabin RV,  
heat coffee, tea and water  
directly on stove or fire.

*Dishwasher  
safe*

## OPERATING INSTRUCTIONS

---

### Brewing Coffee

1. **Fill with Water:** Fill the boiler with the desired amount of water, up to its 12-cup (3-quart) capacity.
2. **Add Coffee Grounds:** Place coffee grounds into the percolator basket (if using a percolator insert, otherwise add directly for boiling water). The boiler is designed to maintain pure flavor without altering the taste of your beverage.
3. **Heat Source:**
  - **Stovetop Use:** Place the boiler on a stovetop burner over medium to high heat.
  - **Campfire Use:** Place the boiler directly on hot coals or a campfire grate. Ensure stability.
4. **Boil:** Bring the water to a boil. The enameled steel and carbon steel core facilitate rapid heat absorption and even distribution.
5. **Serve:** Once brewed or heated, carefully remove the boiler from the heat source using protective mitts. Pour and serve.

## MAINTENANCE AND CLEANING

---

- **Dishwasher Safe:** The Granite Ware Coffee Boiler is dishwasher-friendly for convenient cleaning.
- **Hand Washing:** For hand washing, use warm, soapy water and a soft sponge or cloth. The smooth enamel surface makes cleaning effortless.
- **Metal Utensil Safe:** The enamel coating is safe for use with metal utensils, reducing concerns about scratching during cleaning or use.
- **Drying:** Ensure the boiler is thoroughly dried after washing to prevent water spots.

## TROUBLESHOOTING

---

| Problem | Possible Cause | Solution |
|---------|----------------|----------|
|---------|----------------|----------|

| Problem                    | Possible Cause                              | Solution                                                                                                                                                       |
|----------------------------|---------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Slow heating               | Insufficient heat source or uneven contact. | Ensure the boiler is placed directly over the heat source. For campfires, ensure good contact with hot coals.                                                  |
| Enamel chipping            | Impact from dropping or harsh handling.     | Handle with care. Avoid dropping or striking against hard surfaces.                                                                                            |
| Metallic taste in beverage | Not applicable.                             | The pure enamel surface is designed not to alter the taste of your beverage. If a metallic taste is detected, ensure the boiler is clean and free of residues. |
