Jonti-Craft 5131JC

Jonti-Craft 5131JC Changing Table with Left Stairs User Manual

Model: 5131JC | Brand: Jonti-Craft

1. INTRODUCTION

This manual provides instructions for the safe and proper use, assembly, and maintenance of your Jonti-Craft 5131JC Changing Table with Left Stairs. This changing table is designed for use in various environments such as daycares, nurseries, and homes, offering a secure and organized space for diaper changing.

Figure 1: Jonti-Craft 5131JC Changing Table with Left Stairs, showing the overall design with the changing pad area, storage cabinets, and integrated pull-out stairs.

Key Features:

- **Deep Rails & Safety Strap:** Features four raised sides and a security strap to ensure child safety during diaper changes.
- **Pull-Out Stairs & Storage Shelves:** Includes pull-out stairs for toddlers to access the changing area independently, which conveniently slide under the table when not in use. Three spacious shelves are located behind closable doors for secure storage.
- **Minimal Assembly:** Designed for easy assembly with detailed instructions provided.
- **Durable Construction:** Built with sturdy wood and a hardboard recessed back for enhanced structural support.
- **Child-Friendly Design:** Rounded edges and corners prevent injuries, and the surface is easy to clean. Meets CPSIA/ASTM requirements.

2. SAFETY FEATURES

The Jonti-Craft 5131JC Changing Table is designed with multiple safety features to protect children and caregivers.

2.1 Deep Rails and Security Strap

The changing area is equipped with four raised sides (deep rails) to prevent children from rolling off. A security strap is also included to further secure the child during changing procedures. Always use the security strap when a child is on the changing table.

2.2 Rounded Edges and Kickplates

All edges and corners of the changing table are rounded to minimize the risk of injury. Integrated kickplates are designed to prevent toes from getting pinched, enhancing safety for children moving around the unit.

3. ASSEMBLY

The Jonti-Craft 5131JC Changing Table requires minimal assembly. Detailed instructions are included with the product to guide you through the process. Ensure all components are present and undamaged before beginning

assembly.

3.1 Construction Details

The unit features dowel-pin construction for added strength and longevity, along with MAXBracket triangular strength brackets for enhanced stability. A hardboard recessed back provides additional structural support.

Fun for even the
littlest of learners

4. OPERATION

The Jonti-Craft 5131JC Changing Table is designed for ease of use, particularly with its integrated stairs and ample storage.

4.1 Using the Pull-Out Stairs

The changing table features pull-out stairs on the left side, allowing toddlers to climb onto the changing surface independently. To extend the stairs, gently pull them out from the base of the unit. Once the child is on the changing surface, push the stairs back into the unit to save space and prevent obstruction.

Figure 6: The changing table with its left-side stairs fully extended and storage cabinet doors open, revealing interior shelves.

Figure 7: The changing table with its left-side stairs retracted and storage cabinet doors open, showing the compact design when stairs are not in use.

4.2 Storage Compartments

The unit includes three spacious storage shelves behind closable doors, ideal for organizing diapering materials, wipes, and other essentials. Each opening measures 13.75" wide x 18.375
