# **Seki EDGE Takumi No Waza 2-piece Grooming Kit (G-3101) Instruction Manual**

Model: G-3101

## **INTRODUCTION**

---

This manual provides essential information for the proper use and care of your Seki EDGE Takumi No Waza 2-piece Grooming Kit (G-3101). Please read these instructions carefully before first use to ensure optimal performance and longevity of your tools.

## **PRODUCT COMPONENTS**

---

The Takumi No Waza 2-piece Grooming Kit includes the following items:

- Stainless steel fingernail clipper
- Stainless steel toenail clipper
- Genuine leather case with zipper

## SAFETY INFORMATION

---

Please observe the following safety guidelines:

- Keep out of reach of children.
- Always use with caution due to sharp edges.
- Store in a safe place when not in use to prevent accidental injury.

## SETUP

---

The Seki EDGE Takumi No Waza Grooming Kit requires no assembly. The clippers are pre-assembled and ready for use. Simply remove the desired clipper from the leather case.

## OPERATING INSTRUCTIONS

---

The general usage of nail clippers is widely known. For best results and to maintain the sharpness of the blades, follow these recommendations:

1. **Select the appropriate clipper:** Use the smaller clipper for fingernails and the larger clipper for toenails.
2. **Position the clipper:** Place the nail between the blades, ensuring only the desired portion of the nail is within the cutting edge.
3. **Apply gentle pressure:** Press down firmly but gently on the lever to cut the nail. Avoid excessive force to prevent damage to the nail or clipper.
4. **Trim nails straight across:** For toenails, trim straight across to help prevent ingrown nails. For fingernails, you may follow the natural curve.
5. **File if necessary:** If a file is included or desired, gently smooth any rough edges after clipping.

## MAINTENANCE

---

Proper maintenance ensures the longevity and performance of your grooming kit:

- **Cleaning:** After each use, wipe the clipper blades with a clean, dry cloth to remove any nail debris. For deeper cleaning, you may use an alcohol wipe. Ensure the clippers are completely dry before storing.
- **Storage:** Always store the clippers in the provided genuine leather case. The case protects the blades from damage and keeps the tools together. The small opposing pocket in the case can be used for other small manicure tools.
- **Rust Resistance:** The clippers are made from rust-resistant steel. However, prolonged exposure to moisture can still cause corrosion. Avoid storing in damp environments.

## TROUBLESHOOTING

---

If you encounter issues with your grooming kit, consider the following:

- **Dullness:** If clippers seem dull, ensure they are clean and free of debris. These clippers are designed for long-lasting sharpness. If dullness persists after cleaning, professional sharpening may be considered, though typically not required for many years of use.
- **Sticking mechanism:** If the clipper mechanism feels stiff, ensure it is clean. A tiny drop of light machine oil (e.g., sewing machine oil) applied to the pivot point can help, but wipe off any excess immediately.
- **Case zipper issues:** Ensure the zipper is kept clean and free of obstructions. Do not force a stuck zipper.
