KODAK 5300

Kodak EasyShare 5300 All-in-One Printer User Manual

Model: 5300

PRODUCT OVERVIEW

The Kodak EasyShare 5300 is an all-in-one printer designed for home use, offering print, copy, and scan functionalities. It features a 3.0-inch color LCD display for easy navigation and photo preview, and supports direct printing from most memory cards. This model is engineered to produce lab-quality photos and clear documents, utilizing a 2-cartridge, 6-ink system.

Image: Kodak EasyShare 5300 All-in-One Printer, showing the main unit with its paper trays and control panel with LCD screen.

SETUP

1. **Unpacking:** Carefully remove the printer from its packaging. Remove all protective tapes and packing materials.
2. **Power Connection:** Connect the power adapter to the printer and then to a wall outlet. Do not turn on the printer yet.
3. **Ink Cartridge Installation:** Open the printer access door. Install the black and color ink cartridges into their designated slots. Refer to the on-screen prompts or included quick start guide for specific instructions.
4. **Paper Loading:** Load plain paper into the main input tray. For photo printing, load photo paper into the dedicated photo tray.
5. **Software Installation:** Insert the provided software CD into your computer's CD-ROM drive, or download the latest drivers and software from the official Kodak support website. Follow the on-screen instructions to complete the installation.
6. **Connect to Computer:** Connect the printer to your computer using a USB cable or establish a Bluetooth connection if desired.
7. **Initial Power On:** Turn on the printer. Follow any on-screen prompts on the printer's LCD for initial setup, such as language selection and print head alignment.

OPERATING INSTRUCTIONS

Printing

- **From Computer:** Open the document or image you wish to print. Select "Print" from the application's menu. Choose

the Kodak EasyShare 5300 printer, adjust print settings (paper type, quality, size), and click "Print".

- **From Memory Card:** Insert a compatible memory card into the printer's card slot. Use the 3.0-inch color LCD to browse photos. Select the desired photos, adjust print settings (e.g., quantity, size, borders), and initiate printing.
- **Via Bluetooth:** Ensure your Bluetooth-enabled device (e.g., camera phone) is paired with the printer. Select the image on your device and choose to print via Bluetooth.

Copying

1. **Place Document:** Lift the scanner lid and place the document face-down on the scanner glass, aligning it with the guide marks. Close the lid.
2. **Select Copy Function:** On the printer's control panel, select the "Copy" option using the LCD display and navigation buttons.
3. **Adjust Settings:** Choose copy settings such as number of copies, color or black and white, and copy quality.
4. **Start Copying:** Press the "Start" or "Copy" button to begin the copying process.

Scanning

1. **Place Document:** Lift the scanner lid and place the document face-down on the scanner glass. Close the lid.
2. **Initiate Scan:**
 - **From Computer:** Open the Kodak EasyShare software on your computer. Select the "Scan" function. Choose scan settings (e.g., resolution, destination folder, document type) and click "Scan".
 - **From Printer:** On the printer's control panel, select the "Scan" option. You may be prompted to select a destination (e.g., computer, memory card) if configured.
3. **Review Scan:** Once scanning is complete, the scanned image or document will appear on your computer or be saved to the selected destination.

Using the LCD Display and Memory Cards

The 3.0-inch color LCD display allows you to preview photos, navigate menus, and adjust settings directly on the printer. Insert compatible memory cards into the designated slot to access and print photos without a computer.

MAINTENANCE

Ink Cartridge Replacement

1. **Check Ink Levels:** Monitor ink levels through the printer's LCD display or the Kodak software on your computer.
2. **Purchase New Cartridges:** Obtain genuine Kodak black and 5-color ink cartridges compatible with the EasyShare 5300.
3. **Access Cartridges:** With the printer powered on, open the ink cartridge access door. The print carriage will move to the replacement position.
4. **Remove Old Cartridge:** Gently press down on the old cartridge to release it, then pull it out.
5. **Install New Cartridge:** Remove the new cartridge from its packaging. Carefully insert the new cartridge into the empty slot until it clicks into place.
6. **Close Door:** Close the ink cartridge access door. The printer may perform an alignment or calibration process.

Cleaning the Printer

- **Exterior:** Wipe the exterior surfaces of the printer with a soft, damp, lint-free cloth. Avoid using abrasive cleaners or solvents.

- **Scanner Glass:** Clean the scanner glass with a soft cloth lightly dampened with glass cleaner. Ensure no residue is left behind.
- **Internal Cleaning:** If print quality issues persist after replacing ink, use the printer's utility software to perform a print head cleaning or alignment cycle.

TROUBLESHOOTING

Problem	Solution
Printer not turning on	Ensure power cord is securely connected to both the printer and a working electrical outlet.
Print quality issues (streaks, faded colors)	Check ink levels and replace cartridges if low. Perform a print head cleaning cycle through the printer's utility software or control panel.
Paper jams	Carefully remove any jammed paper from the input tray, output tray, or internal areas. Ensure paper is loaded correctly and not overfilled.
Cannot connect to computer	Verify USB cable connection. Reinstall printer drivers. For Bluetooth, ensure device is paired and within range.

SPECIFICATIONS

- **Model:** Kodak EasyShare 5300 All-in-One Printer
- **Functions:** Print, Copy, Scan
- **Print Technology:** Inkjet
- **Maximum Print Resolution:** 4800 x 1200 dpi (Color)
- **Print Speed (Black):** Up to 32 ppm
- **Print Speed (Color):** Up to 30 ppm
- **Display:** 3.0-inch Color LCD
- **Connectivity:** USB, Bluetooth, PictBridge
- **Memory Card Support:** Most standard memory card formats
- **Paper Capacity:** 100 sheets (main tray), 20 sheets (4x6 photo tray)
- **Duplex Printing:** Automatic
- **Dimensions (W x D x H):** 18.8"W x 14.7"D x 8.8"H
- **Weight:** 27.7 pounds
- **Operating Systems:** Windows XP and later, Mac OS 10.4.8 and later

WARRANTY AND SUPPORT

The Kodak EasyShare 5300 All-in-One Printer is backed by a **1-year limited manufacturer's warranty**. For technical support, driver downloads, or further assistance, please visit the official Kodak support website or refer to the contact information provided in your product packaging.

Note: Warranty terms and conditions may vary by region. Please retain your proof of purchase for warranty claims.

Today Limited Warranty
Sima Products Corporation warrants this product against defects in materials and workmanship for the period of 90 days from the date of purchase. This warranty is limited to the product and does not cover accessories or optional equipment. The warranty is void if the product has been damaged by misuse, accident, fire, flood, or other causes beyond our control. The warranty is also void if the product has been repaired or altered by anyone other than Sima Products Corporation. For more information, please contact our customer service department at 800-346-7462.

Introduction

Congratulations on your purchase of the Sima SUP-2 Universal Power Adapter. It can power digital cameras and other portable electronic devices requiring 3.3 / 4.2 / 5.0 / 6.0 / 6.5 / 8.4 or 9.5 V DC power. The SUP-2 can also provide power for other devices. It is fully regulated using high efficiency switching technology and features overload and short circuit protection. The SUP-2 comes with seven connectors to fit different digital cameras and other electronic devices. Additional connectors are available from Sima.

This package includes:
1 AC adapter 7 Center pin positive connectors
1 12V lighter cord 1 SUP-2 The Manual

Operation

1. Set the output voltage switch, as illustrated in Fig. 1, to the desired output for your device. Choose from the following settings: 3.3 / 4.2 / 5.0 / 6.0 / 6.5 / 8.4 or 9.5 V.

The SUP-2 comes with seven standard connectors. The connectors allow you to match the size and polarity of your device's DC input jack. If your device requires other types of connectors, contact Sima customer service at 800-346-7462.

The connectors supplied with the SUP-2 are all set in a center pin positive alignment (Fig. A). If your device requires a center pin negative power source (Fig. B), do not use this adapter. To determine the required current and correct polarity for your device, refer to the manufacturer's instruction manual or specifications.

Fig. A + - - Fig. B - - +
2. Select the appropriate connector and attach it to the output socket at the end of the output cord. The connectors are numbered as follows: 1, 2, 4, 5, 13, 14 & 17. To identify the correct connector for your camera, see the list of digital cameras on the reverse side of this sheet. If unsure, use the connector that fits the power jack of your camera. The three-pin connectors are designed to fit into the socket in only one position. Align the pins as shown at right in Fig. 2. Do not force.

3. Insert the connector into the power jack on your portable device.

4. Plug either the AC adapter or the car cigarette lighter cord into the SUP-2's input power jack located at the top of the unit. Note: Do not plug the AC adapter or car cord directly into anything except the SUP-2. Next, plug the AC adapter (or car cord) into a standard AC wall outlet (or car lighter). The red power light on the SUP-2 should turn on. You can now operate your device.

IMPORTANT: Your portable device must be rated between 3 - 10V DC and no more than 2000 mA of current to use the SUP-2. If the exact voltage for your device is not listed below and is less than 10V, you can try setting the voltage switch to the nearest voltage - use the lower setting first. If the device does not operate, disconnect the connector from the device, reset the voltage switch to the next higher setting and re-connect. Do not continue trying higher settings as they may result in damage to your device or the adapter.

The SUP-2's current (mA) must be equal to or greater than the current your portable device requires. Remember 1A = 1000mA, 0.5A = 500mA. Use the following chart to determine the output current from the SUP-2:

Output Voltage	Max. Current	Output Voltage	Max. Current
3.3V = 2.1A		6.5V = 1.7A	
4.2V = 2.0A		8.4V = 1.5A	
5.0V = 1.9A		9.5V = 1.5A	

Resetting the Adapter

CAUTION: If the power light turns off, check the power source. If on, the output current may be beyond the AC adapter's specifications and the overload protection has been activated. To reset the adapter:

1. Disconnect the AC adapter from the AC outlet and the device you are powering. Wait 10 seconds.
2. Plug the AC adapter into the AC outlet again. If the indicator remains off, there may be a problem with the AC adapter. Contact Sima customer service for assistance.
