

## CLOCKY SK CLOCKY 2

# CLOCKY Extra Loud Alarm Clock

Model: SK CLOCKY 2

---

## INTRODUCTION

The CLOCKY Extra Loud Alarm Clock is designed to assist heavy sleepers in waking up effectively. This unique alarm clock features wheels that allow it to roll away, requiring you to get out of bed to turn it off. It also includes a loud alarm and an optional snooze function.

*Image: The CLOCKY alarm clock, blue in color, shown with its retail packaging. The clock features a digital display and two large wheels on either side.*

## SETUP

---

### 1. Battery Installation

The CLOCKY alarm clock requires 4 AAA batteries (not included).

1. Locate the battery compartment on the underside of the clock.
2. Open the battery compartment cover.
3. Insert 4 AAA batteries, ensuring correct polarity (+/-).
4. Securely close the battery compartment cover.

### 2. Initial Time Setting

Upon battery installation, the display will illuminate. Follow these steps to set the current time:

1. Press the **'T'** button (Time Set) to enter time setting mode. The hour digits will flash.
2. Use the **'H'** button (Hour) to adjust the hour.
3. Use the **'M'** button (Minute) to adjust the minute.

4. Press the **'T'** button again to confirm the time and exit setting mode.

## OPERATING INSTRUCTIONS

---

### 1. Setting the Alarm

1. Press the **'A'** button (Alarm Set) to enter alarm setting mode. The alarm hour digits will flash.
2. Use the **'H'** button to adjust the alarm hour.
3. Use the **'M'** button to adjust the alarm minute.
4. Press the **'A'** button again to confirm the alarm time.
5. To activate or deactivate the alarm, press the (bell icon) button. An alarm icon will appear on the display when the alarm is active.

### 2. Snooze Function

The CLOCKY alarm clock offers an optional snooze function.

- When the alarm sounds, press the large button on top of the clock to activate snooze. The alarm will pause for a set duration (typically 9 minutes) and then sound again.
- You can set CLOCKY to allow one snooze or no snooze. If set to no snooze, CLOCKY will immediately roll away when the alarm sounds.

*Image: A black CLOCKY alarm clock resting on a bed, with text indicating its purpose to prevent excessive snoozing.*

### 3. Wheel Activation and Runaway Feature

CLOCKY's distinctive feature is its ability to roll away, forcing you to get out of bed.

- To activate the runaway feature, press the ○ (circle icon) button. A wheel icon will appear on the display when the runaway feature is active.
- When the alarm sounds with the runaway feature active, CLOCKY will jump from your nightstand (up to 3 feet high) and roll around your room.
- To stop the alarm, you must find CLOCKY and press the large button on top.
- To deactivate the runaway feature, press the ○ button again. CLOCKY will then function as a stationary alarm clock.

feature.

## 4. Alarm Sound and Volume

CLOCKY features a loud alarm sound designed to wake heavy sleepers. The volume is fixed and cannot be adjusted.

## MAINTENANCE

### 1. Cleaning

To clean your CLOCKY alarm clock, use a soft, dry cloth. Avoid using abrasive cleaners or solvents, as these can damage the surface.

### 2. Battery Replacement

When the display dims or the alarm functionality becomes inconsistent, it is time to replace the batteries. Follow the battery installation steps outlined in the "Setup" section.

## TROUBLESHOOTING

- **Clock not turning on or display is dim:** Check battery polarity. Replace with fresh AAA batteries.
- **Alarm not sounding:** Ensure the alarm is activated (bell icon visible on display). Verify alarm time is set correctly.
- **Wheels not moving:** Ensure the runaway feature is activated (circle icon visible on display). Check for obstructions around the wheels. Ensure the clock is placed on a flat surface from which it can roll.
- **Inaccurate time:** Reset the time as per the "Initial Time Setting" instructions. If the issue persists, replace batteries.

## SPECIFICATIONS
