Nib Type Descriptions

Nib Type	Line Size	Description
S (Superfine)	0.3mm	For intricate details, fine lines, and precise outlines.
F (Fine)	0.5mm	Ideal for general drawing, consistent lines, and small lettering.
M (Medium)	0.7mm	Suitable for bolder lines, filling in small areas, and more prominent lettering.
B (Brush)	1-5mm	Flexible brush nib for dynamic strokes, calligraphy, and broad coverage.

Getting Started

Your Pitt Artist Pens are ready for immediate use. Simply remove the cap and begin drawing or writing. No priming or shaking is required for initial use.

Operating Instructions

These pens are versatile tools for various artistic endeavors. Experiment with different nibs to achieve desired effects.

- **Drawing and Sketching:** Use the S, F, or M nibs for detailed line work, cross-hatching, and outlining. The B nib is excellent for expressive strokes and filling larger areas.

- **Calligraphy and Hand Lettering:** The B (Brush) nib is specifically designed for flexible line variations, making it perfect for modern calligraphy and expressive lettering styles. The S, F, and M nibs can be used for precise script and decorative elements.
- **Layering:** The India ink allows for layering of colors without bleeding through most papers. Apply lighter strokes first, then build up darker tones.
- **Waterproof and Smudge-Resistant:** Once dry, the ink is permanent, waterproof, and will not smudge, making it suitable for use with watercolors or other wet media.

Care and Maintenance

- **Recap After Use:** Always replace the cap firmly after each use to prevent the nib from drying out and to ensure a long lifespan for your pens.
- **Storage:** Store pens horizontally to maintain even ink distribution to the nib. Avoid storing in direct sunlight or extreme temperatures.
- **Cleaning:** If a nib becomes clogged, gently wipe it with a damp cloth. Do not attempt to disassemble the pen.

Troubleshooting

- **Dry Nib:** If the pen seems dry, ensure the cap was securely replaced after the last use. Try gently drawing on a scrap piece of paper to reactivate ink flow. If the pen has been unused for an extended period, it may have dried out.
- **Inconsistent Ink Flow:** This can sometimes occur if the pen is not stored horizontally. Store the pen horizontally for a few hours and try again.
- **Bleeding:** While Pitt Artist Pens are designed not to bleed through most papers, results can vary depending on paper quality and thickness. For best results, use high-quality art paper.
