Barkan Full Motion TV Wall Mount

MODEL 3300.B INSTRUCTION MANUAL

Introduction

This manual provides detailed instructions for the safe and proper installation and operation of your Barkan Full Motion TV Wall Mount, Model 3300.B. This articulating wall mount is designed for 13-65 inch flat and curved screen televisions, supporting a maximum weight of 88 lbs (40 kg). Please read all instructions carefully before beginning installation.

Safety Information

- **Weight Capacity:** Do not exceed the maximum weight capacity of 88 lbs (40 kg). Exceeding this limit may result in serious injury or property damage.
- **Screen Size:** This mount is compatible with 13-65 inch screens. Ensure your TV's VESA pattern and weight are within the specified limits.
- **Wall Type:** Install the mount only on solid concrete walls, concrete block walls, or wood stud walls **DO NOT** install on drywall, gypsum, or plaster without wood studs.
- **Professional Installation:** If you are unsure about the installation process or wall type, consult a qualified professional.
- **Tools:** Use appropriate tools and wear safety glasses during installation.
- **Children:** Keep children away from the installation area.
- **Check Connections:** Regularly check that all screws and connections are secure.

Package Contents

Verify that all components are present before installation. If any parts are missing or damaged, do not proceed with installation and contact Barkan support.

Wall Compatibility

Ensure your wall is suitable for mounting. This mount is compatible with:

- Drywall with wood studs
- Concrete blocks / Concrete wall

NOT compatible with: Drywall / gypsum / plaster without wood studs.

Assembly Steps (1-2-3)

1. **Connect the TV plate to the back of the TV:** Attach the TV plate to the VESA mounting holes on the back of your television using the appropriate screws, washers, and spacers from the hardware kit. Ensure a secure fit.
2. **Install the bracket on the wall:** Locate the desired mounting position. Use a stud finder for wood studs or mark drill points for concrete. Drill pilot holes and securely fasten the wall bracket to the wall using the provided wall screws and anchors. Use a level to ensure the bracket is straight.

3. **Snap the TV onto the bracket:** Carefully lift the television (with the attached TV plate) and align it with the wall bracket. Snap the TV plate onto the wall bracket. Ensure the safety mechanism is engaged to prevent accidental disengagement.

Additional value for money

Easy assembly **As easy as 1-2-3**

1 Connect the TV plate to the back of the TV

2 Install the bracket on the wall

3 Snap the TV onto the bracket

Backscreen Connection Positioning

The mount supports various VESA patterns. Refer to the diagram to determine the correct positioning for your TV's backscreen connections. Adapters may be required for certain configurations.

Quality & Safety Above All It all starts from the smallest detail...

High quality hardware

Where safety and quality are top priorities, we have developed our own unique wall anchor and screws

Barkan's Hardware Kit

Divided and marked hardware kit for easy orientation throughout the assembly process

TV screws compatible with 90% of popular TVs

If your screen requires different screen-connection screws, please purchase them in your local hardware store or contact us at sales.usa@barkanmounts.com

Operating Instructions

Once installed, your Barkan Full Motion TV Wall Mount allows for flexible viewing adjustments:

- **Tilt Adjustment (0° to 15°):** Loosen the tilt adjustment screws on the TV plate, adjust the screen to your desired vertical angle, and then securely tighten the screws.
- **Swivel Adjustment (180°):** Gently push or pull the TV to rotate it horizontally to the left or right. The mount allows for a 180-degree swivel range.
- **Screen Leveling (±5°):** If the screen appears slightly unlevel after installation, adjust the leveling mechanism on the TV plate to achieve a perfectly horizontal display.
- **Extension from Wall (2.6" to 10.4"):** Extend or retract the TV from the wall by gently pulling or pushing the arm assembly.

Full Motion

PREMIUM

Maintenance

To ensure the longevity and safe operation of your TV wall mount:

- **Regular Inspection:** Periodically check all mounting screws and connections to ensure they remain tight and secure.
- **Cleaning:** Wipe the mount with a soft, dry cloth. Avoid using abrasive cleaners or solvents that could damage the finish.
- **Lubrication:** The articulating joints are designed for smooth movement. If movement becomes stiff, a small amount of silicone-based lubricant can be applied to the pivot points.

Troubleshooting

- **TV is not level:** Use the screen leveling adjustment feature ($\pm 5^\circ$) to correct the horizontal alignment. Ensure the wall bracket was installed level.
- **Difficulty moving the TV:** Check if any cables are snagged or if the tilt/swivel screws are overtightened. Apply a small amount of silicone lubricant to the joints if necessary.
- **Mount feels unstable:** Immediately remove the TV from the mount. Re-check all wall and TV connections. Ensure the mount is installed on a compatible wall type and that all screws are fully tightened. Do not re-mount the TV until stability is confirmed.
- **Missing hardware:** Refer to the package contents list. If parts are missing, contact Barkan customer support.

Warranty and Support

Barkan products are designed for quality and durability. This product includes a **Lifetime Warranty**. For technical assistance, missing parts, or warranty claims, please visit the official Barkan website or contact their customer service team. Detailed contact information can typically be found on the Barkan website or on the product packaging.
