I-C IM-35A

I-C Manga Manuscript Paper A4 Thick Type 40 Sheets 135KG

Model: IM-35A

1. Introduction

The I-C Manga Manuscript Paper is a high-quality paper specifically designed for professional cartoon and manga artists. Manufactured in Japan, this A4-sized paper is crafted from carefully selected raw materials to ensure optimal performance for various drawing techniques. It features a smooth surface and is engineered to prevent ink bleeding, making it suitable for detailed line work and coloring.

2. Setup

This product requires minimal setup. Follow these guidelines for optimal use:

- **Unpacking:** Carefully remove the paper pack from its packaging. Avoid bending or creasing the sheets during removal.
- **Storage:** Store the paper in a cool, dry place away from direct sunlight and excessive humidity. Keep it flat to prevent warping or curling.
- **Preparation:** Ensure your drawing surface is clean and flat before placing the paper.

3. Operating Instructions

The I-C Manga Manuscript Paper is designed for various drawing and sketching applications, particularly for manga and comic creation. Its features are optimized for professional use.

3.1 Paper Features and Usage

- **A4 Size:** Each sheet measures approximately 210 mm x 297 mm (8.27 inches x 11.69 inches), the standard A4 dimension.
- **135KG Weight:** The paper has a weight of 135KG, providing a sturdy and durable surface that can withstand various drawing tools and techniques without tearing or buckling.
- **Smooth Surface:** The uncoated finish offers a smooth drawing experience, allowing pens and brushes to glide easily.
- **Bleed Resistance:** Engineered to prevent ink bleed, this paper is ideal for use with ink pens, markers (including Copic multiliners), and other wet media.
- **Pre-printed Guides:** Each sheet includes non-photocopy blue guidelines for trim areas, bleed areas, and measurement rulers, assisting artists in precise paneling and layout.

4. Maintenance

Proper maintenance ensures the longevity and quality of your manuscript paper:

- **Storage:** Always store unused paper flat in its original packaging or a dedicated paper storage box. Avoid storing vertically, which can lead to bending or creasing.
- **Environment:** Keep the paper in a stable environment, away from extreme temperature fluctuations, high humidity, or direct sunlight. These conditions can cause the paper to warp, yellow, or become brittle.
- **Handling:** Handle sheets by the edges to avoid transferring oils or dirt from your hands onto the drawing surface.

5. Troubleshooting

While I-C Manga Manuscript Paper is designed for high performance, here are some common issues and their solutions:

Problem	Possible Cause	Solution
Paper appears wrinkled or creased.	Improper handling during shipping or storage.	Ensure paper is stored flat. If received damaged, contact your retailer for replacement.
Ink bleeding or feathering.	Excessive ink application, incompatible ink type, or damaged paper surface.	Use appropriate ink types for manga paper. Allow previous layers to dry before applying more ink. Inspect paper for surface damage.
Paper curling or warping.	Exposure to humidity, extreme temperatures, or improper storage.	Store paper in a stable, dry environment. Keep it flat under a light weight if necessary.
