Satco S4983

Satco S4983 40 Watt A19 Incandescent Light Bulb

INSTRUCTION MANUAL

Model: S4983 | Brand: Satco

Product Overview

The Satco S4983 is a 40-watt A19 incandescent light bulb featuring a ceramic yellow finish. Designed for general lighting applications, this bulb provides a warm, ambient light. It operates on 130 volts and has a standard medium base (E26), making it compatible with most common light fixtures.

Image: Satco S4983 40 Watt A19 Incandescent Light Bulb, Ceramic Yellow. This image displays the bulb's A19 shape and ceramic yellow coating, along with its standard medium screw base.

This incandescent bulb is known for its traditional light quality and is suitable for various indoor settings where a specific color or warm glow is desired. Its average rated life is approximately 2000 hours.

Setup and Installation

Installing the Satco S4983 light bulb is a straightforward process. Always ensure the power to the fixture is turned off before installation to prevent electrical shock.

1. **Power Off:** Locate the light fixture's power switch or the circuit breaker controlling the fixture and turn it off. Verify that the power is off before proceeding.
2. **Remove Old Bulb (if applicable):** If replacing an existing bulb, allow it to cool completely before carefully unscrewing it counter-clockwise from the socket.
3. **Insert New Bulb:** Gently screw the Satco S4983 bulb clockwise into the E26 medium base socket until it is snug. Do not overtighten, as this can damage the bulb or fixture.
4. **Restore Power:** Once the bulb is securely installed, restore power to the fixture.
5. **Test:** Turn on the light switch to confirm the bulb is functioning correctly.

***Important Safety Note:** Ensure your hands are dry during installation. Do not exceed the maximum wattage rating of your light fixture.*

Operating Instructions

The Satco S4983 incandescent light bulb operates like any standard bulb. Once installed and power is supplied, it will illuminate when the connected light switch is toggled to the "on" position.

- **Light Output:** This 40-watt bulb produces a warm yellow light, ideal for creating a specific ambiance or for decorative purposes.
- **Dimming:** As an incandescent bulb, the S4983 is generally compatible with most standard dimmer switches. Ensure your dimmer is rated for incandescent loads.
- **Heat Emission:** Incandescent bulbs generate heat during operation. Ensure adequate ventilation around the fixture and avoid touching the bulb when it is on or immediately after it has been turned off.

Maintenance

Minimal maintenance is required for the Satco S4983 light bulb. Regular cleaning and proper handling will help ensure its longevity.

- **Cleaning:** Before cleaning, always turn off the power to the fixture and allow the bulb to cool. Wipe the bulb gently with a soft, dry cloth. Do not use liquid cleaners or abrasive materials, as these can damage the bulb's finish or electrical components.
- **Replacement:** When the bulb reaches the end of its life, it will cease to illuminate. Follow the "Setup and Installation" steps to safely replace the bulb. Dispose of old bulbs according to local regulations.

Troubleshooting

If your Satco S4983 bulb is not functioning as expected, consider the following common issues and

solutions:

Problem	Possible Cause	Solution
Bulb does not light up.	No power to fixture, loose bulb, or bulb has burned out.	Check power switch/breaker. Tighten bulb in socket. Replace bulb if burned out.
Bulb flickers.	Loose connection, incompatible dimmer, or faulty fixture.	Ensure bulb is tight. Verify dimmer compatibility. Inspect fixture wiring (consult electrician if unsure).
Bulb burns out quickly.	Voltage fluctuations, excessive vibration, or frequent on/off cycling.	Ensure stable power supply. Use in fixtures with minimal vibration. Reduce frequent switching if possible.

If troubleshooting steps do not resolve the issue, contact customer support for further assistance.

Specifications

Key technical specifications for the Satco S4983 40 Watt A19 Incandescent Light Bulb:

Model Name: S4983

Brand: Satco

Light Type: Incandescent

Wattage: 40 watts

Voltage: 130 Volts

Bulb Shape Size: A19

Bulb Base: E26 Medium

Light Color: Ceramic Yellow (Warm White)

Color Temperature: 2000 Kelvin

Brightness: 450 Lumens

Average Rated Hours: 2000 hours

Material: Glass

Product Dimensions: 2.38"W x 13"H

Country of Origin: Canada

UPC: 045923049835
