## SETUP AND REFILLING INSTRUCTIONS

---

The CHANEL N°5 Purse Spray is designed for easy refilling. Follow these steps to replace an empty vial with a new one:

1. **Remove the empty vial:** Gently pull the empty fragrance vial straight out from the bottom of the black purse spray casing. It should slide out with minimal effort.
2. **Prepare the new refill:** Take one of the new 0.7 oz (20 ml) Eau De Toilette refill vials from its packaging. Ensure the cap is securely on the refill vial.
3. **Insert the new vial:** Align the new refill vial with the opening at the bottom of the purse spray casing. Push the vial firmly but gently into the casing until it clicks securely into place.
4. **Activate the spray:** To expose the spray nozzle, twist the top of the black purse spray casing. A half-turn should reveal the nozzle. To retract and protect the nozzle, twist it back.

Your CHANEL N°5 Purse Spray is now ready for use.

## OPERATING INSTRUCTIONS

---

To apply CHANEL N°5 Eau De Toilette:

1. **Prepare the spray:** Twist the top of the purse spray casing to expose the nozzle.
2. **Apply fragrance:** Hold the spray approximately 5-7 inches (12-18 cm) away from your skin. Press the nozzle firmly to release a fine mist of fragrance onto pulse points such as wrists, neck, behind the ears, or décolletage.
3. **Re-secure:** After use, twist the top of the casing back to retract and protect the nozzle, preventing accidental sprays and leakage.

*Note on fragrance application:* The natural smell of your skin, influenced by factors such as mood, stress level, age, body chemistry, diet, and current medications, can affect how a scent smells on you. Skin type (dry or oily) can also influence the longevity of the fragrance.

## MAINTENANCE AND CARE

---

- **Storage:** Store the fragrance set in a cool, dry place, away from direct sunlight and extreme temperatures, to preserve the quality and longevity of the scent.
- **Cleaning:** If the exterior of the purse spray casing becomes dirty, wipe it gently with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- **Travel:** The purse spray is designed for travel and is TSA approved. Ensure the nozzle is retracted before placing it in your bag to prevent leakage.

## TROUBLESHOOTING
