Hot Wheels '67 Dodge Charger #28/36

Hot Wheels 2000 First Editions '67 Dodge Charger #28/36 Instruction Manual

INTRODUCTION

This manual provides essential information for the Hot Wheels 2000 First Editions '67 Dodge Charger #28/36 die-cast model. This collectible item is part of the 2000 First Editions series, featuring a detailed replica of the classic 1967 Dodge Charger. It is designed for collectors and enthusiasts aged 3 years and up, offering both display value and play functionality.

Image: The Hot Wheels 2000 First Editions '67 Dodge Charger #28/36, still sealed in its original blister packaging. The car is silver with a brown interior, visible through the clear plastic. The packaging features the Hot Wheels logo and a graphic of a blue car on a fiery background, indicating its series and brand.

SETUP

The Hot Wheels '67 Dodge Charger is ready for display or play directly out of its packaging. No assembly is required. To remove the car, carefully open the blister pack by cutting or tearing along the edges. Exercise caution to avoid damaging the car or the packaging if you intend to preserve it for collector purposes.

OPERATING INSTRUCTIONS

This die-cast model is designed for imaginative play and display. It features free-rolling wheels, allowing it to be pushed along flat surfaces. It is compatible with most Hot Wheels tracks and playsets. Ensure the play surface is clean and free of debris to prevent damage to the wheels or paint finish. Avoid excessive force during play to maintain the integrity of the model.

MAINTENANCE AND CARE

- **Cleaning:** Use a soft, dry cloth to gently wipe the car and remove dust. Avoid abrasive cleaners or harsh chemicals, as these can damage the paint or plastic components.
- **Storage:** Store the model in a cool, dry place away from direct sunlight to prevent fading or material degradation. For collectors, consider display cases to protect against dust and physical damage, preserving its condition.
- **Handling:** Handle the car by its body to avoid bending or breaking smaller details like mirrors or spoilers. Always pick it up carefully to prevent accidental drops.

TROUBLESHOOTING

Hot Wheels die-cast cars are generally robust and designed for durability. If the wheels do not roll smoothly, check for any trapped debris or bent axles. Gentle cleaning or adjustment may resolve minor issues. For significant damage, repair may not be feasible due to the sealed nature of the die-cast construction. In such cases, replacement might be the only option.

SPECIFICATIONS

Feature	Detail
Model Name	'67 Dodge Charger
