## Laurey 34942

# Instruction Manual for Laurey 34942 3.75 Inch - 96mm Plastic Wire Cabinet Hardware Pull - White arch

Model: 34942 | Brand: Laurey

## 1. PRODUCT OVERVIEW

---

The Laurey 34942 is a 3.75 inch (96mm) plastic wire cabinet hardware pull in white. This durable and easy-to-install pull is designed for use with cabinets, making it ideal for new construction, renovation, remodeling, updating, and replacement projects. It comes with all necessary mounting hardware for a straightforward installation.

## 2. INCLUDED COMPONENTS

---

- (1) Laurey 34942 Cabinet Hardware Pull
- (2) Mounting Screws (various lengths may be included)

## 3. SETUP AND INSTALLATION

---

### Tools Required (Not Included):

- Phillips head screwdriver
- Drill (if creating new mounting holes)
- Measuring tape or ruler

- Pencil (for marking)

### Installation Steps:

1. **Prepare the Surface:** Ensure the cabinet door or drawer where the pull will be installed is clean and dry.
2. **Mark Mounting Points:** If replacing an existing pull, use the existing holes. If installing on a new surface, measure and mark the two mounting points for the screws. The center-to-center spacing for this pull is 3.75 inches (96mm). Use a pencil to mark the exact locations.
3. **Drill Pilot Holes (if necessary):** If installing on a new surface, carefully drill pilot holes at the marked points. Ensure the drill bit size is appropriate for the mounting screws to prevent splitting the wood or material.
4. **Attach the Pull:** Align the pull with the drilled holes or existing holes. Insert the provided mounting screws from the inside of the cabinet door/drawer through the holes and into the pull.
5. **Secure the Pull:** Using a Phillips head screwdriver, tighten the screws until the pull is firmly attached and does not wobble. Do not overtighten, as this can strip the screws or damage the cabinet material.
6. **Test:** Gently pull on the installed hardware to ensure it is secure and functions correctly.

## 4. OPERATING INSTRUCTIONS

---

The Laurey 34942 cabinet pull is designed for simple operation. To open a cabinet door or drawer, grasp the pull firmly and apply gentle, consistent pressure to pull it open. To close, push the door or drawer back into its closed position.

## 5. MAINTENANCE

---

- **Cleaning:** To maintain the appearance of your cabinet pull, wipe it regularly with a soft, damp cloth. Avoid using abrasive cleaners, harsh chemicals, or solvents, as these can damage the plastic finish.
- **Screw Tightness:** Periodically check the mounting screws to ensure they remain tight. If the pull feels loose, gently tighten the screws with a Phillips head screwdriver. Do not overtighten.

## 6. TROUBLESHOOTING

---

Problem	Possible Cause	Solution
Pull feels loose or wobbly.	Mounting screws are loose.	Tighten the mounting screws with a Phillips head screwdriver.
Difficulty installing or aligning.	Incorrect measurement or pilot hole drilling.	Re-measure and ensure pilot holes are accurately placed and sized. For new installations, use a template if available.
Pull is damaged or cracked.	Excessive force or impact.	The pull may need to be replaced. Refer to warranty information.

## 7. SPECIFICATIONS

---

Attribute	Detail
Brand	Laurey

Attribute	Detail
Model Number	34942
Material	Plastic
Color	White
Product Dimensions	4"L x 0.5"W
Center To Center Spacing	3.75 Inches (96mm)
Item Weight	0.01 Ounces
Specific Uses	Cabinets
Special Feature	Easy to Install
