Hot Wheels Tornado Trackset Instruction Manual

Model: 187116

1. Introduction

This manual provides detailed instructions for the assembly, operation, and maintenance of your Hot Wheels Tornado Trackset. Please read all instructions carefully before use to ensure safe and optimal performance of the product. The Hot Wheels Tornado Trackset offers an exciting racing experience where cars zoom through a spinning tornado challenge.

Safety Warnings

- **Choking Hazard:** Small parts. Not for children under 3 years.
- **Adult Supervision:** Adult assembly is required. Adult supervision is recommended during play.
- **Intended Use:** This product is designed for indoor use only.
- **Careful Handling:** Avoid throwing or dropping the trackset components to prevent damage.

2. Package Contents

Verify that all components listed below are present in your package:

- 1x Hot Wheels Tornado Trackset (unassembled components)
- 1x 1:64 scale Hot Wheels car

3. Setup and Assembly

Adult assembly is required. Follow these steps to assemble your Hot Wheels Tornado Trackset:

1. **Unpack Components:** Carefully remove all track pieces, connectors, and the launcher from the packaging.
2. **Connect Track Sections:** Join the straight track sections together, ensuring they click securely into place. Refer to the diagram for the correct sequence.
3. **Attach Launcher:** Securely attach the car launcher mechanism to the starting end of the track.
4. **Assemble Tornado Base:** Connect the base of the tornado feature to the designated section of the track. Ensure it is stable.
5. **Install Tornado Mechanism:** Place the spinning tornado component onto its base. Verify that it can rotate freely.
6. **Final Track Connections:** Complete the track loop or path, connecting all remaining pieces to form the complete trackset as shown in the image below.

4. Operating Instructions

Once assembled, follow these steps to play with your Hot Wheels Tornado Trackset:

1. **Place Car:** Position the included 1:64 scale Hot Wheels car into the launcher at the start of the track.
2. **Prepare Launcher:** Pull back the launcher mechanism until it locks into place, or press the button to prime it,

depending on the launcher design.

3. **Launch Car:** Press the launch button or release the mechanism to propel the car forward onto the track.
4. **Engage Tornado:** The car will race towards the spinning tornado. The objective is to launch the car past the twister.
5. **Topple the Twister:** For an added challenge, launch a second car to attempt to topple the twister. If the car misses, it may be blown away by the spinning action.

5. Maintenance

Proper care will extend the life of your Hot Wheels Tornado Trackset:

- **Cleaning:** Wipe the track and components with a soft, dry cloth. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the trackset in a cool, dry place away from direct sunlight when not in use. Disassemble if necessary for compact storage.
- **Inspection:** Periodically check all connections and moving parts for wear or damage. Replace any broken components immediately.

6. Troubleshooting

If you encounter issues with your Hot Wheels Tornado Trackset, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Car does not launch properly.	Launcher not fully primed or car not seated correctly.	Ensure the launcher is pulled back completely. Verify the car is positioned correctly in the launcher.
Car derails on the track.	Loose track connections or foreign objects on the track.	Check all track connections for secure fit. Clear any debris from the track surface.
Tornado does not spin or spins weakly.	Obstruction or incorrect assembly of the tornado mechanism.	Ensure the tornado component is correctly seated on its base and free from obstructions. Re-check assembly steps.
