Top Knobs M1155

Top Knobs M1155 Nouveau III Square Bar Pull User Manual

Model: M1155 | Brand: Top Knobs

1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your Top Knobs M1155 Nouveau III 6-5/16" Square Bar Pull. Please read this manual thoroughly before beginning installation to ensure proper function and longevity of your product.

Image: The Top Knobs M1155 Nouveau III Square Bar Pull in a brushed satin nickel finish, viewed from the front. This image showcases the sleek, rectangular design of the pull.

2. SAFETY INFORMATION

Always exercise caution when handling tools and hardware. Keep small parts, such as screws, out of reach of children. If you are unsure about any step of the installation process, it is recommended to consult with a qualified professional.

3. PACKAGE CONTENTS

Verify that all components are present before beginning installation:

- One (1) Top Knobs M1155 Nouveau III 6-5/16" Square Bar Pull
- Mounting Screws (typically two per pull)

4. SETUP AND INSTALLATION

Tools Required: Pencil, Measuring Tape, Drill, Drill Bit (appropriate size for mounting screws), Screwdriver.

1. **Step 1: Mark Installation Points.** Using a measuring tape and pencil, carefully mark the two points on your cabinet door or drawer where the pull will be installed. Ensure the distance between these marks matches the pull's center-to-center spacing (6-5/16 inches or 160mm).
2. **Step 2: Drill Pilot Holes.** Using a drill with a drill bit slightly smaller than the mounting screws, carefully drill pilot holes at the marked points. Drill straight through the cabinet material to avoid splitting.
3. **Step 3: Attach the Pull.** Align the pull with the drilled holes. Insert the mounting screws from the inside of the cabinet door/drawer through the pilot holes and into the threaded receivers on the pull. Tighten the screws firmly with a screwdriver until the pull is secure. Do not overtighten, as this may damage the cabinet material or the pull.

Image: A close-up view of the pull's mounting points, illustrating the center-to-center measurement. This image helps visualize the critical dimension for accurate installation.

5. OPERATING INSTRUCTIONS

To operate the Top Knobs M1155 Nouveau III Square Bar Pull, simply grasp the pull firmly and apply gentle force to open or close your cabinet door or drawer. The ergonomic design ensures a comfortable grip for daily use.

6. MAINTENANCE

Clean the pull regularly with a soft, damp cloth. Avoid using abrasive cleaners, harsh chemicals, or scouring pads, as these can damage the finish. For stubborn marks, a mild soap solution can be used, followed by drying with a soft, clean cloth to prevent water spots.

7. TROUBLESHOOTING

- **Pull is loose:** If the pull feels loose, gently tighten the mounting screws from the inside of the cabinet door or drawer using a screwdriver. Do not overtighten. If the screws are stripped, replace them with new ones of the same size and thread.
- **Pull is scratched/damaged:** While the finish is designed for durability, accidental damage can occur. For significant scratches or damage that affects the appearance or function, replacement of the pull may be necessary. Contact customer support for replacement options.

8. SPECIFICATIONS

Feature	Specification
Model Number	M1155
Material	Metal, Zinc
Color/Finish	Brushed Satin Nickel

Feature	Specification
Center to Center Spacing	6-5/16 inches (160mm)
