## 7. MAINTENANCE

Store the product in a cool, dry place away from direct sunlight. Ensure the cap is securely replaced after each use to prevent contamination and maintain product integrity.

## 8. TROUBLESHOOTING

- **Sensation too strong:** Reduce the amount of gel applied. Start with a smaller drop and gradually increase if desired.

- **No sensation:** Ensure the product is applied directly to the clitoris and massaged thoroughly. Allow a few minutes for the stimulating effect to begin. If no sensation is felt after increasing the amount slightly, individual sensitivity may vary.
- **Irritation or discomfort:** Discontinue use immediately and wash the area with mild soap and water. If irritation persists, consult a healthcare professional.
- **Product not dispensing:** Ensure the pump is fully primed by pressing it several times until the gel appears. If the bottle is nearly empty, it may require more pumps to dispense the remaining product.
