## CucinaPro 1452

# CucinaPro Model 1452 Four Square Belgian Waffle Maker

## INSTRUCTION MANUAL

### Introduction

Thank you for choosing the CucinaPro Model 1452 Four Square Belgian Waffle Maker. This appliance is designed to help you prepare delicious Belgian waffles with ease. Please read this instruction manual thoroughly before operating your new waffle maker to ensure safe and efficient use. Keep this manual for future reference.

### Important Safety Information

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons. Read all instructions carefully.

- Do not touch hot surfaces. Use handles or knobs.
- To protect against electrical shock, do not immerse cord, plugs, or the appliance in water or other liquid.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts, and before cleaning the appliance.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- The use of accessory attachments not recommended by the appliance manufacturer may cause injuries.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Extreme caution must be used when moving an appliance containing hot oil or other hot liquids.
- To disconnect, turn any control to "off", then remove plug from wall outlet.
- Do not use appliance for other than intended use.

### Product Overview

Familiarize yourself with the components of your CucinaPro Four Square Belgian Waffle Maker:

- **Non-Stick Waffle Plates:** Designed for easy release and cleaning.
- **Adjustable Temperature Control:** Dial to select desired browning level.

- **Indicator Lights:** Red light indicates heating, green light indicates ready.
- **Brushed Stainless Steel Housing:** Durable exterior.

## Setup

1. **Unpack:** Carefully remove the waffle maker and all packaging materials.
2. **Initial Cleaning:** Before first use, wipe the non-stick plates with a damp cloth and dry thoroughly. The exterior can be wiped with a soft, damp cloth. Do not immerse the appliance in water.
3. **Placement:** Place the waffle maker on a stable, heat-resistant, and dry surface. Ensure there is adequate ventilation around the appliance.

## Operating Instructions

---

1. **Preheat:** Close the waffle maker and plug it into a standard electrical outlet. The red indicator light will illuminate, signaling that the appliance is heating. Turn the adjustable temperature control dial to your desired setting (e.g., medium for standard browning).
2. **Ready Indicator:** Once the waffle maker reaches the set temperature, the green indicator light will illuminate, indicating it is ready for use.
3. **Prepare Batter:** While the waffle maker preheats, prepare your waffle batter according to your recipe.
4. **Pour Batter:** Open the waffle maker. Pour approximately 1/2 to 3/4 cup of batter onto the center of the lower waffle plate, ensuring it spreads evenly into all four sections. Do not overfill.
5. **Cook Waffles:** Gently close the lid. The red indicator light may turn on again as the appliance maintains temperature. Cook for approximately 3-5 minutes, or until the green indicator light illuminates again and the waffles are golden brown and crispy to your preference. Cooking time may vary based on batter consistency and desired browning.
6. **Remove Waffles:** Once cooked, open the lid and carefully remove the waffles using a heat-resistant plastic or wooden utensil. Do not use metal utensils, as they can damage the non-stick coating.
7. **Repeat:** Close the lid and allow the waffle maker to reheat until the green light illuminates before cooking additional waffles.

# Double Sided Cooking

## Premium Quality & Distributes Heat Evenly

## Maintenance and Cleaning

Proper maintenance ensures the longevity and performance of your waffle maker.

1. **Cool Down:** Always unplug the appliance and allow it to cool completely before cleaning.
2. **Clean Waffle Plates:** Use a soft, damp cloth or sponge to wipe the non-stick plates. For stubborn residue, dampen a cloth with warm, soapy water and gently wipe. Avoid abrasive cleaners or scouring pads, as these can damage the non-stick coating. Never use metal tools.

3. **Clean Exterior:** Wipe the exterior housing with a soft, damp cloth. Do not use abrasive cleaners.
4. **Storage:** Store the waffle maker in a clean, dry place. The appliance is designed to stand upright for convenient storage.

## Troubleshooting

---

Problem	Possible Cause / Solution
Waffles sticking to plates.	Ensure plates are clean and lightly greased if necessary (though non-stick, a light oil spray can help with certain batters). Do not open the lid too early during cooking.
Waffles not browning evenly.	Check that the temperature control dial is set to a higher browning level. Ensure the waffle maker is fully preheated (green light on) before adding batter.
Indicator lights not working.	Verify the appliance is properly plugged into a working outlet. If the issue persists, discontinue use and contact customer support.
Waffles are too soft or too crispy.	Adjust the temperature control dial to a lower setting for softer waffles or a higher setting for crispier waffles. Experiment with cooking times.

## Specifications

---

- **Model Number:** 1452
- **Brand:** CucinaPro
- **Wattage:** 1200 watts
- **Product Dimensions:** 9.75"D x 13"W x 4"H
- **Material:** Iron (plates), Stainless Steel (housing)
- **Special Feature:** Non-Stick Coating, Adjustable Browning Control
