

Waste King L-3200

Waste King L-3200 3/4 HP Continuous Feed Garbage Disposal User Manual

Model: L-3200 | Horsepower: 3/4 HP

INTRODUCTION

This manual provides comprehensive instructions for the installation, operation, maintenance, and troubleshooting of your Waste King L-3200 3/4 HP Continuous Feed Garbage Disposal. Please read this manual thoroughly before installation and use to ensure proper function and safety.

The Waste King L-3200 features a high-speed 2,700 RPM permanent magnet motor, an easy EZ-Mount system for quick installation, sound-deadening insulation for quiet operation, and a pre-installed power cord for convenience. It is designed for efficient food waste management and is safe for use with properly sized septic tanks.

SAFETY INFORMATION

WARNING: Read all instructions carefully before operating the appliance.

- Always turn off power to the disposal unit before attempting to clear a jam or perform maintenance.
- Do not put hands or foreign objects into the disposal.
- Ensure proper electrical grounding to prevent electric shock.
- Do not dispose of non-food items, large bones, or fibrous materials.
- Always run cold water when operating the disposal.

PACKAGE CONTENTS

Verify that all components are present before beginning installation:

- Waste King L-3200 Garbage Disposal Unit
- EZ Mount System
- Pre-installed Power Cord
- Drain Elbow and Gaskets
- Stopper/Splashguard

- Installation Instructions (this manual)

Waste King L-3200 3/4 HP Continuous Feed Garbage Disposal with pre-installed power cord.

SETUP & INSTALLATION

The Waste King L-3200 features an EZ-Mount system designed for quick and straightforward installation. No specialized electrical expertise is required due to the pre-installed power cord.

Pre-Installation Checklist

Ensure you have the following tools and materials:

- Screwdriver
- Adjustable Pliers
- Plumber's Putty
- Hammer and Punch (if knocking out dishwasher inlet plug)

Mounting the Disposal

Follow the detailed instructions provided in the included installation guide for mounting the EZ Mount system to your sink and attaching the disposal unit. The EZ Mount Twist-and-Lock design simplifies this

process.

EZ Mount Twist-and-Lock
system for fast and easy installation

Continuous feed
continues to grind as long as power is on

Removable Power Cord
Extra savings over models with cords sold separately
Cord removes easily for optional hardwiring

Lined with
sound-deadening insulation

High-speed permanent magnet motor provides fast, powerful grinding, designed to **reduce jamming**

Front-mounted, conveniently located power reset button

Electrical Connection

The Waste King L-3200 comes with a pre-installed power cord, allowing for direct plug-in installation. Ensure the outlet is properly grounded and meets local electrical codes.

This video demonstrates the installation process of a Waste King garbage disposal, highlighting the ease of connecting the pre-installed power cord and mounting the unit.

OPERATING INSTRUCTIONS

How to Use Your Disposal

1. Remove the sink stopper.
2. Turn on a medium stream of cold water.
3. Turn on the disposal by pressing the power button.
4. Slowly feed food waste into the disposal opening.
5. Allow the disposal to run until all waste is cleared and only the sound of water and the motor is heard.
6. Turn off the disposal, then turn off the water.

Watch the Waste King garbage disposal in action as it efficiently grinds food waste, demonstrating its powerful continuous feed operation.

Acceptable Waste

The Waste King L-3200 is designed to handle most common food scraps, including:

- Vegetable peels (carrots, potatoes, celery in small amounts)
- Fruit scraps (apple cores, citrus rinds)
- Small bones (fish, poultry)
- Coffee grounds
- Plate scrapings

Unacceptable Waste

Avoid placing the following items into the disposal to prevent damage and clogs:

- Large or hard bones (beef, pork)
- Fibrous materials (corn husks, artichokes, onion skins)
- Grease, fats, or oils
- Non-food items (plastic, metal, glass, paper)
- Chemicals or harsh cleaning agents

MAINTENANCE

Care and Cleaning

- **Regular Flushing:** After each use, run cold water for a few seconds after the grinding stops to flush the drain line.
- **Deep Cleaning:** To clean the grinding chamber and remove odors, grind a tray of ice cubes followed by citrus peels (lemon, orange).

Removable Splashguard

The splashguard can be removed for cleaning. Simply pull it out from the sink opening, clean it with soap and water, and reinsert it. This helps maintain hygiene and prevents odors.

Close-up view of the removable splashguard, facilitating easy cleaning.

TROUBLESHOOTING

Disposal Not Starting

- **Check Power:** Ensure the disposal is properly plugged into a working electrical outlet.
- **Reset Button:** Locate the red reset button on the front of the disposal unit and press it firmly. If it trips repeatedly, there may be an internal issue requiring professional service.

Jammed Disposal

- **Turn Off Power:** Disconnect power to the disposal at the circuit breaker or by unplugging it.
- **Clear Obstruction:** Use tongs or pliers to carefully remove any visible objects from the grinding chamber. Never use your hands.
- **Use Wrench:** If no object is visible, insert the disposal wrench (or a 1/4 inch hex wrench) into the center hole on the bottom of the disposal and turn it back and forth to free the grinding plates.
- **Reset:** Restore power and press the reset button. Turn on cold water and then the disposal.

Location of the front-mounted power reset button for easy access.

SPECIFICATIONS

Feature	Specification
Model Number	L-3200
Horsepower	3/4 HP
Motor Speed	2,700 RPM
Voltage	115 Volts
Product Dimensions	7.75 x 7.75 x 13.75 inches
Item Weight	8.6 pounds
Grind Components Material	Stainless Steel
Housing Material	Corrosion Proof Polymer

Feed Type

Continuous Feed
