Travel Blue TB221

Travel Blue Comfi Inflatable Travel Neck Pillow User Manual

Model: TB221

Introduction

Thank you for choosing the Travel Blue Comfi Inflatable Travel Neck Pillow. This U-shaped neck pillow is designed to provide comfortable neck and head support during various forms of travel and relaxation. Its inflatable design allows for compact storage and adjustable firmness.

Key Features:

- Ergonomic U-shaped design for reliable neck and head support.
- Soft fleece fabric cover for enhanced comfort.
- Inflatable core for adjustable firmness and compact storage.
- Lightweight and travel-friendly.

Setup

To prepare your Travel Blue Comfi Neck Pillow for use, follow these steps:

1. **Locate the Valve:** Unzip the pillow cover to expose the inflatable core and the air valve.
2. **Inflate the Pillow:** Open the valve cap. Inflate the pillow by blowing air into the valve. For optimal comfort, inflate to your desired firmness.
3. **Seal the Valve:** Once inflated, quickly close the valve cap to prevent air from escaping. It is important to seal the valve promptly after inflation.
4. **Adjust Firmness (Optional):** If the pillow is too firm, gently press the valve to release a small amount of air until the desired softness is achieved.
5. **Re-zip Cover:** Zip the pillow cover back into place.

Important Note for Air Travel: When flying, it is recommended to inflate the pillow to approximately 75-80% of its full capacity before takeoff. Air pressure changes during flight can cause the pillow to expand, potentially leading to over-inflation and discomfort. You can adjust the firmness further once at cruising altitude.

Operating Instructions

The Travel Blue Comfi Neck Pillow is designed for versatile use:

- **Neck Support:** Position the U-shaped pillow around your neck with the opening at the front or back, depending on your preference for support.
- **Travel:** Ideal for use in airplanes, cars, trains, or buses to prevent neck strain and promote relaxation during long journeys.
- **Home & Office:** Can also be used for napping, reading, or relaxing at home or in the office.

Maintenance

Proper care will extend the life of your neck pillow:

- **Cleaning:** The pillow cover is made of 100% Polyester. The manufacturer recommends**Dry Clean Only** for the pillow cover. Do not machine wash or tumble dry.
- **Storage:** To store, open the valve and gently press the pillow to release all air. Once deflated, fold or roll the pillow compactly and secure the valve. Store in a cool, dry place away from direct sunlight.
- **Material:** The inner inflatable core is made of 100% PVC. Avoid sharp objects that could puncture the core.

Troubleshooting

If you encounter issues with your Travel Blue Comfi Neck Pillow, consider the following:

- **Pillow Deflates Quickly:**
    - Ensure the valve cap is securely and completely closed after inflation. A loose cap is the most common cause of air leakage.

- Inspect the inflatable core for any visible punctures or damage. If a puncture is found, the pillow may require replacement.
- Check the seal around the valve stem. If it appears compromised, this could lead to air loss.

- **Difficulty Inflating/Deflating:**
  - Ensure the valve cap is fully open during inflation and deflation.
  - For inflation, blow steadily into the valve. For deflation, gently squeeze the pillow while the valve is open.
- **Pillow Feels Too Hard/Soft:**
  - Adjust the air volume by inflating more or releasing air through the valve until the desired firmness is achieved.

Specifications

Feature	Detail
Brand	Travel Blue
Model Number	TB221
Colour	Grey
Size	Free Size
Shape	Semicircular (U-shaped)
Material (Cover)	100% Polyester Fleece
