OPERATING INSTRUCTIONS

- **Storage:** Store the vehicle in a cool, dry place away from direct sunlight to prevent material degradation.
- **Part Integrity:** Periodically check for any loose or damaged parts. Reattach or replace as necessary.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Engine pods or middle wing detach easily.	Normal wear from active play; ball joint or clip may be loose.	Gently reattach the part. Ensure it snaps securely into place. If a ball joint is loose, try rotating it slightly to find a more secure fit.
Projectiles do not fire.	Projectile not loaded correctly or mechanism jammed.	Ensure the projectile is fully inserted. Check for any obstructions in the firing mechanism.
Canopy does not open/close smoothly.	Hinge obstruction or minor misalignment.	Check for any debris around the hinge. Gently adjust the canopy to align it properly. Do not force it.
