

HOT TOOLS 1110

HOT TOOLS Pro Artist 24K Gold Curling Iron (1-1/4 inch) Instruction Manual

Model: 1110

IMPORTANT SAFEGUARDS

When using electrical appliances, especially when children are present, basic safety precautions should always be followed, including the following:

- Read all instructions before using this appliance.
- Keep away from water. Do not use while bathing or in a shower.
- Unplug immediately after using.
- Do not place or store appliance where it can fall or be pulled into a tub or sink.
- Do not place in or drop into water or other liquid.
- If an appliance falls into water, unplug it immediately. Do not reach into the water.
- This appliance is for household use only.
- Never operate this appliance if it has a damaged cord or plug, if it is not working properly, or if it has been dropped or damaged, or dropped into water.
- Keep the cord away from heated surfaces. Do not wrap the cord around the appliance.
- Never use while sleeping.
- Never drop or insert any object into any opening.
- Do not use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.
- Do not use an extension cord with this appliance.
- The appliance is hot when in use. Do not let eyes or bare skin touch heated surfaces.
- Do not place the heated appliance directly on any surface while it is hot or plugged in.
- Always store this appliance and cord in a moisture-free area. Do not store it at temperatures exceeding 140°F (60°C).
- Do not use this appliance for any purpose other than its intended use.

PRODUCT OVERVIEW

The HOT TOOLS Pro Artist 24K Gold Curling Iron is designed for creating defined curls and waves. It features a 24K gold-plated barrel for even heat distribution and consistent styling results. The appliance incorporates Pulse Technology to maintain a stable temperature during use.

Key Features:

- **24K Gold Barrel:** Provides excellent heat conduction for even styling.
- **Pulse Technology:** Ensures the iron gets hot and stays hot for consistent results.
- **Variable Heat Settings:** Adjustable temperature up to 430°F (221°C) for various hair types.
- **Separate On/Off Switch:** Easy operation with an indicator light.
- **Extra-Long Cool Tip:** For safe and effortless styling.
- **8ft. Professional Swivel Cord:** Offers flexibility and prevents tangling during use.

- **Foldaway Safety Stand:** For convenient and safe placement when not in hand.

Image: A detailed diagram highlighting the features of the curling iron.

SETUP

1. Ensure the curling iron is unplugged and placed on a heat-resistant surface.
2. Uncoil the 8ft. professional swivel cord completely.
3. Plug the appliance into a standard electrical outlet.
4. Press the ON/OFF switch to the 'ON' position. The indicator light will illuminate.

OPERATING INSTRUCTIONS

This curling iron is designed for use on dry hair. For best results, ensure hair is clean and free of styling products before use.

Temperature Selection:

The curling iron features a rheostat control dial for variable heat settings up to 430°F (221°C). Adjust the dial to select the appropriate temperature for your hair type:

- **Lower Settings:** Recommended for fine, thin, or damaged hair.
- **Medium Settings:** Suitable for normal or medium hair types.
- **Higher Settings:** Ideal for thick, coarse, or hard-to-curl hair.

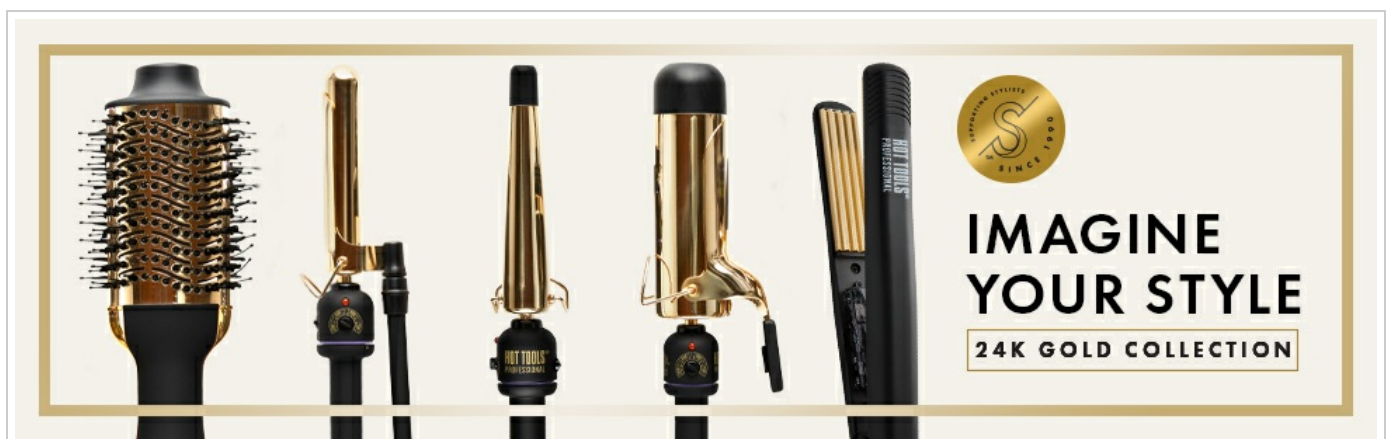

Image: The rheostat control dial for adjusting heat settings.

Curling Technique:

1. Allow the curling iron to heat up to your desired temperature. The indicator light will remain on.
2. Section your hair into manageable strands.
3. Open the clip and place the end of a hair section under the clip.
4. Roll the hair section up towards the scalp, ensuring the hair is evenly distributed around the barrel. Use the cool tip for stability.
5. Hold for a few seconds (duration depends on hair type and desired curl intensity).
6. Release the clip and gently slide the curling iron out of the curl.
7. Repeat for all sections of hair. Allow curls to cool before styling for better hold.

PROFESSIONAL RESULTS ON ALL HAIR TYPES

MAINTENANCE

Cleaning:

- Always unplug the appliance and allow it to cool completely before cleaning.

- Wipe the barrel and handle with a damp cloth. Do not use abrasive cleaners or solvents.
- Ensure no water enters the internal components.

Storage:

- When not in use, unplug the appliance.
- Allow it to cool and store it in a dry location, out of reach of children.
- Do not wrap the cord around the appliance, as this can cause premature wear and breakage of the cord.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Appliance does not heat up.	Not plugged in correctly or power switch is off.	Ensure the plug is fully inserted into the outlet and the ON/OFF switch is in the 'ON' position. Check the power outlet.
Inconsistent heat or temperature drops.	Normal operation of Pulse Technology or incorrect temperature setting.	Pulse Technology automatically restores heat. If persistent, ensure the rheostat dial is set appropriately for your hair type.
Hair not curling effectively.	Temperature too low, sections too large, or insufficient holding time.	Increase temperature, use smaller hair sections, and hold for a longer duration. Ensure hair is dry.

If the problem persists after attempting these solutions, discontinue use and contact customer support or a qualified service professional.
