Paul Neuhaus 4412-55 Halogen Table Lamp User Manual

Model: 4412-55 | Brand: Paul Neuhaus

1. INTRODUCTION

Thank you for purchasing the Paul Neuhaus 4412-55 Halogen Table Lamp. This manual provides essential information for the safe and efficient use, installation, and maintenance of your new lamp. Please read these instructions carefully before assembly and operation, and retain them for future reference.

2. SAFETY INSTRUCTIONS

- Always disconnect the lamp from the power supply before cleaning, changing the bulb, or performing any maintenance.
- This lamp is designed for indoor use only (IP20 rating). Do not expose it to moisture or extreme temperatures.
- Ensure the voltage of your power supply matches the lamp's requirements (230 Volts).
- Do not touch the halogen bulb directly with bare hands, as oils can reduce its lifespan. Use a clean cloth or glove.
- Allow the bulb to cool completely before attempting to replace it. Halogen bulbs can become very hot during operation.
- Keep the lamp away from flammable materials.
- Do not modify the lamp in any way. Any modifications may void the warranty and pose a safety risk.
- If the external flexible cable or cord of this luminaire is damaged, it shall be exclusively replaced by the manufacturer or his service agent or a similar qualified person in order to avoid a hazard.

3. PACKAGE CONTENTS

Please check that all components are present and in good condition:

- 1 x Paul Neuhaus 4412-55 Table Lamp Unit (Steel base with Glass shade)
- 1 x G9 Halogen Bulb (28 Watts)

4. SETUP

1. **Unpack the Lamp:** Carefully remove all components from the packaging. Retain packaging for future transport or storage.
2. **Install the Bulb:**
 - Ensure the lamp is unplugged from the power outlet.
 - Gently remove the glass shade by twisting or lifting it according to the lamp's design (specific mechanism not detailed, refer to visual inspection).
 - Insert the G9 halogen bulb into the socket. Do not touch the bulb with bare hands.
 - Carefully reattach the glass shade.
3. **Position the Lamp:** Place the lamp on a stable, flat surface, ensuring it is not near any heat sources or flammable materials.
4. **Connect to Power:** Plug the lamp's power cord into a suitable 230V electrical outlet.

5. OPERATING INSTRUCTIONS

To operate the Paul Neuhaus 4412-55 Table Lamp:

- Ensure the lamp is properly set up and plugged into a 230V power outlet.
- Locate the power switch on the lamp's cord or base (specific switch type not provided, typically an inline cord switch or a switch on the base).
- Toggle the switch to the 'ON' position to illuminate the lamp.
- Toggle the switch to the 'OFF' position to turn off the lamp.

6. MAINTENANCE

Cleaning

- Always unplug the lamp before cleaning.
- Use a soft, dry cloth to wipe the steel base and glass shade.
- Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the finish.

Bulb Replacement

- Ensure the lamp is unplugged and the bulb has cooled down completely.
- Gently remove the glass shade.
- Carefully pull the old G9 bulb straight out from its socket.
- Insert a new G9 halogen bulb (maximum 28 Watts) into the socket. Avoid touching the new bulb with bare hands.
- Reattach the glass shade.
- Dispose of the old bulb according to local regulations.

7. TROUBLESHOOTING

- **Lamp does not turn on:**

- Check if the power cord is securely plugged into the outlet.
- Verify that the power outlet is functional by testing it with another appliance.
- Ensure the bulb is correctly installed and not loose.
- Replace the bulb with a new one, as the existing bulb may be burnt out.

- **Light flickers:**

- Check the bulb for secure seating in the socket.
- Ensure the bulb is the correct type and wattage (G9, max 28W).
- Try replacing the bulb.
