ABUS AB165/30

ABUS AB165/30 Combination Padlock User Manual

Model: AB165/30

1. Introduction

The ABUS AB165/30 is a compact combination padlock designed for securing luggage, toolboxes, lockers, and other items where keyless access is desired. This padlock features a customizable 3-digit numeric combination, offering convenience and security for various applications.

Figure 1: ABUS AB165/30 Combination Padlock. This image shows the brass body of the padlock with a chrome-plated shackle. The ABUS logo and model number '165/30' are visible on the front, along with three combination dials set to '0-0-0'.

Video 1: Product Summary. This video provides a brief overview of the ABUS AB165/30 Combination Padlock, demonstrating its appearance and basic features.

2. Product Features

- **Compact Design:** Ideal for various applications requiring a small, secure lock.
- **Keyless Convenience:** Set your own 3-digit combination, eliminating the need for keys.

- **Durable Construction:** Made from brass for reliable performance.

3. Setup: Setting Your Combination

Your ABUS AB165/30 padlock comes with a factory preset combination, typically**0-0-0**. Follow these steps to set your personal combination:

1. Ensure the padlock is open. If it is locked, dial the current combination (factory default is 0-0-0) and pull up the shackle.
2. Rotate the shackle 90 degrees (a quarter turn) counter-clockwise from its open position.
3. Press the shackle down firmly into the lock body.
4. While holding the shackle down, rotate the dials to set your desired 3-digit combination. Ensure the numbers are aligned with the indicator marks.
5. Release the shackle.
6. Rotate the shackle back to its original open position (90 degrees clockwise).
7. Close the shackle. Your new combination is now set. Scramble the dials to lock the padlock.

Important: Remember your new combination. There is no master key or reset function if the combination is forgotten.

4. Operating Instructions

4.1. Locking the Padlock

1. Ensure the shackle is fully inserted into the lock body.
2. Scramble the combination dials to a random set of numbers. The padlock is now locked.

4.2. Unlocking the Padlock

1. Rotate the combination dials to align your personal 3-digit combination with the indicator marks.
2. Pull up the shackle to open the padlock.

5. Maintenance

The ABUS AB165/30 padlock requires minimal maintenance to ensure long-lasting performance:

- **Cleaning:** Wipe the padlock body and shackle with a soft, dry cloth to remove dust and dirt. Avoid abrasive cleaners.
- **Lubrication:** If the shackle or dials become stiff, apply a small amount of graphite powder or a silicone-based lubricant to the shackle mechanism and between the dials. Avoid oil-based lubricants as they can attract dirt.
- **Storage:** Store the padlock in a dry environment when not in use to prevent corrosion.

6. Troubleshooting

6.1. Padlock Will Not Open

- **Incorrect Combination:** Double-check that you are entering the correct 3-digit combination and that the numbers are perfectly aligned with the indicator marks.

- **Stuck Mechanism:** If the dials or shackle are stiff, try applying a small amount of lubricant as described in the Maintenance section. Gently wiggle the shackle while attempting to open.

6.2. Cannot Set New Combination

- Ensure the shackle is rotated exactly 90 degrees and pressed down firmly before setting the new numbers. Any misalignment can prevent the combination from being set correctly.
- Verify that the padlock is open with the current combination before attempting to reset.

7. Specifications

Feature	Detail
Brand	ABUS
