Whitmor 6486-1746-WHT

Whitmor Over-the-Door 36-Pair Fold-Up Shoe Rack

MODEL: 6486-1746-WHT

Product Overview

The Whitmor Over-the-Door 36-Pair Fold-Up Shoe Rack is designed to provide efficient and space-saving storage for your footwear collection. Featuring non-slip coated steel bars and durable resin side frames, this organizer helps keep your shoes neatly arranged and easily accessible. Its unique fold-up bar design allows for customizable storage, accommodating various shoe sizes and styles.

Key Features:

- Stores and organizes up to 36 pairs of shoes.
- All twelve bars feature a fold-up design for customized storage of different shoe heights.
- Coated metal bars prevent shoes from sliding or falling.
- Non-slip door pads protect your door from damage and keep the rack stable.

Assembly Instructions

This shoe rack is designed for easy, tool-free assembly. Follow these general steps to set up your organizer:

1. Unpack all components and ensure all parts are present. You should have the resin side frames, coated steel bars, and over-the-door hooks.
2. Connect the steel bars to the designated slots on the resin side frames. Ensure each bar is securely snapped into place.
3. Attach the over-the-door hooks to the top of the assembled rack.
4. Carefully hang the assembled shoe rack over the top of your desired door. The non-slip pads on the back of the rack will help secure it in place and prevent scratching.

Usage Instructions

To maximize the storage capacity and functionality of your shoe rack, consider the following:

- **Placing Shoes:** Position shoes with the toe facing outwards for easy identification and access. The non-slip coating on the bars helps prevent shoes from sliding off.
- **Utilizing Fold-Up Bars:** For taller footwear such as boots or high heels, simply fold up the bar directly above the pair to create additional vertical space. This customizable feature allows you to store shoes of various heights without obstruction.
- **Weight Distribution:** For optimal stability, distribute the weight of your shoes evenly across the rack. Place heavier shoes on lower bars if possible.

Care and Maintenance

To keep your Whitmor Over-the-Door Shoe Rack in excellent condition, follow these simple care instructions:

- **Cleaning:** Wipe down the resin side frames and coated steel bars with a damp cloth. For tougher spots, a mild soap solution can be used.
- **Drying:** After cleaning, immediately towel dry all surfaces to prevent water spots or potential damage to the finish.
- **Inspection:** Periodically check all connections to ensure the bars are securely in place and the over-the-door hooks are stable.

Troubleshooting

If you encounter any issues with your shoe rack, consider the following:

- **Shoes Sliding Off:** Ensure the shoes are placed firmly on the non-slip coated bars. For very smooth-soled shoes, try angling them slightly or utilizing the fold-up bar feature to create a more secure fit.
- **Rack Instability:** Verify that the over-the-door hooks are properly seated on the door and that the non-slip door pads are making full contact with the door surface. Ensure weight is evenly distributed.
- **Door Closure Issues:** If the door does not close properly, check that the rack is not obstructed by the door frame or other items. Adjust the position of the rack or the door pads if necessary.

Product Specifications

Feature	Detail
Brand	Whitmor
Model Number	6486-1746-WHT
Color	White
Material	Resin, Alloy Steel
Product Dimensions (L x W x H)	7.5"D x 22.63"W x 74.5"H
Capacity	Up to 36 pairs of shoes
Installation Type	Over-the-Door Mount
Special Feature	Customizable, Fold-Up Bars, Non-slip
