## COMETIC C7244

# Cometic C7244 Hi-Performance ATV Gasket/Seal User Manual

Model: C7244 | Brand: COMETIC

## PRODUCT OVERVIEW

The Cometic C7244 Hi-Performance ATV Gasket/Seal is designed for professional use in high-performance machines and as an original equipment (OE) replacement. Each part contains the proper amount of gaskets required for one application.

This product is proudly made in the U.S.A.

## WHAT'S INCLUDED

The Cometic C7244 package typically includes:

- Top end gasket set for Kawasaki

- Correct base gasket
- Head gasket
- Cylinder O-rings
- Other top end specific O-rings or seals needed for the top end assembly

## SETUP AND INSTALLATION

This gasket set is intended for use by professionals. Proper installation is crucial for optimal performance and longevity.

1. Ensure the engine surfaces are clean, dry, and free of any old gasket material or debris.
2. Refer to your ATV's service manual for specific torque specifications and installation procedures for head and base gaskets.
3. Carefully align and place the new gaskets and O-rings in their respective positions.
4. Tighten fasteners according to manufacturer's specifications, following the correct tightening sequence.
5. Double-check all connections and ensure no gaskets are pinched or misaligned.

### **Warning:**

This product may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. Always handle with care and follow safety guidelines.

## OPERATING CONSIDERATIONS

Once installed, the Cometic C7244 gaskets are designed to provide a reliable seal for your ATV's engine components.

- After installation, it is recommended to perform a break-in period as specified by your ATV manufacturer.
- Monitor engine temperature and fluid levels closely during initial operation.
- Listen for any unusual noises or signs of leaks, which could indicate improper installation or a faulty seal.

## MAINTENANCE

Gaskets are critical sealing components and generally do not require routine maintenance themselves once installed correctly.

- Regularly inspect your ATV's engine for any signs of oil, coolant, or exhaust leaks around gasketed areas.
- Address any leaks promptly to prevent further damage to engine components.
- When performing engine rebuilds or major services that require disassembling gasketed areas, it is highly recommended to replace all old gaskets with new ones.

## TROUBLESHOOTING

If you experience issues after installing the gasket set, consider the following:

- **Leaks:** Check for proper surface preparation, correct gasket alignment, and adherence to torque specifications. Ensure no fasteners were overtightened or undertightened.
- **Engine Performance Issues:** While less common for gaskets directly, a compromised seal can lead to loss of compression or vacuum leaks. Re-verify installation and consider a compression test.
- **Damaged Gasket:** If a gasket appears damaged upon inspection, it must be replaced. Do not attempt to reuse damaged gaskets.

For persistent issues, consult a qualified ATV mechanic.

## SPECIFICATIONS

Attribute	Detail
Brand	COMETIC
Model	C7244
Item Weight	1.6 ounces
Product Dimensions	8.2 x 5.8 x 0.2 inches
Country of Origin	USA
Manufacturer Part Number	C7244
UPC	182682968769
First Available	September 8, 2007

## WARRANTY INFORMATION

Specific warranty details for Cometic products are typically provided by the manufacturer or authorized distributors at the time of purchase.

Generally, gaskets are consumable items and their warranty may be limited to manufacturing defects prior to installation.

For detailed warranty terms, please refer to the documentation included with your purchase or contact Cometic directly.

## SUPPORT

For technical assistance, product inquiries, or support regarding the Cometic C7244 Hi-Performance ATV Gasket/Seal, please contact Cometic customer service.

You can often find contact information on the official Cometic website or through your product retailer.

When contacting support, please have your product model number (C7244) and any relevant purchase information ready.
