Setup and Installation

Before operating the Kärcher Easy Press Hand Spray Gun, ensure proper connection to your high-pressure system. Follow these steps for safe and effective setup:

1. **Inspect Components:** Verify that the spray gun and your high-pressure hose (NW6 or NW8) are free from damage or debris.
2. **Connect Hose:** Attach the high-pressure hose to the inlet connection of the spray gun. The gun is designed for hoses with a swivel diameter of 11 mm. Ensure the connection is secure and hand-tightened to prevent leaks.
3. **Connect Nozzle/Accessory:** If applicable, attach the desired spray nozzle or accessory to the outlet connection of the spray gun. Ensure it clicks or screws into place firmly.
4. **Check System:** Before turning on the pressure washer, ensure all connections are tight and the system is ready for

operation.

Operating Instructions

The Kärcher Easy Press Hand Spray Gun features a trigger valve for precise control of water flow. Follow these guidelines for operation:

- **Safety First:** Always wear appropriate personal protective equipment (PPE), such as safety glasses, when operating high-pressure equipment.
- **Engage Safety Lock:** Before starting the pressure washer, ensure the trigger safety lock (if present) is engaged to prevent accidental activation.
- **Start Pressure Washer:** Turn on your high-pressure washer according to its manufacturer's instructions.
- **Operate Trigger:** Disengage the safety lock. Squeeze the yellow trigger to activate the water flow. The softgrip insert provides comfortable handling during use.
- **Release Trigger:** Release the trigger to stop the water flow. Always engage the safety lock when not actively spraying or when moving the unit.
- **Depressurize System:** After use, turn off the pressure washer and squeeze the trigger to release any remaining pressure in the system before disconnecting hoses or accessories.

Maintenance

Regular maintenance ensures the longevity and optimal performance of your Kärcher Easy Press Hand Spray Gun. Perform the following tasks:

- **Cleaning:** After each use, rinse the spray gun thoroughly with clean water to remove any chemical residues or debris.
- **Inspect Connections:** Periodically check all connections for wear, cracks, or damage. Replace worn O-rings or seals as needed to prevent leaks.
- **Storage:** Store the spray gun in a clean, dry place, protected from freezing temperatures. Disconnect it from the pressure washer and hose when not in use.
- **Winterization:** If storing in freezing conditions, ensure all water is drained from the spray gun to prevent damage from ice expansion.
