

## OUT WB30N

# OUT White Brite Laundry Whitener Powder Instruction Manual

Model: WB30N

## INTRODUCTION

---

This manual provides comprehensive instructions for the safe and effective use of OUT White Brite Laundry Whitener Powder, Model WB30N. This product is designed to restore and brighten white washable fabrics by removing tough stains such as rust, red clay, yellowing, and dinginess. It also addresses color runs and dye stains, offering an alternative to traditional bleach.

## IMPORTANT SAFETY INFORMATION

---

**WARNING: Keep out of reach of children.**

This product is an eye and skin irritant. Harmful if swallowed. Vapor is harmful. Always read and follow all precautions on the product label before use.

- Avoid contact with eyes and prolonged contact with skin.
- Use in a well-ventilated area.
- Do not mix with other cleaners or household chemicals as harmful fumes may be created.
- In case of eye contact, flush immediately with water for 15 minutes. If irritation persists, seek medical attention.
- In case of skin contact, wash thoroughly with soap and water.
- If swallowed, do not induce vomiting. Drink a glass of water and seek medical attention immediately.

For detailed first aid information, refer to the product packaging or contact a poison control center.

## PRODUCT OVERVIEW

---

OUT White Brite Laundry Whitener Powder is a powerful additive formulated to tackle stubborn stains and restore the brightness of white fabrics. It is effective against:

- Rust stains

- Red clay and dirt stains
- Yellowing and dinginess
- Color runs and dye stains

This product is designed to be safer for fabrics than bleach and is suitable for use in both High-Efficiency (HE) and standard washing machines.

## USAGE INSTRUCTIONS

---

Always follow garment care labels. Test on an inconspicuous area for colorfastness before use, especially for items with color accents or patterns.

### Method 1: Pre-Soak for Tough Stains on Whites

1. Add 1/2 cup of White Brite to 1 gallon of warm water.
2. Soak stained white clothing in the solution for 20 minutes. For extremely tough stains, soaking can be extended up to several hours or overnight, ensuring the fabric remains submerged.
3. Remove and wash as normal with your regular detergent.

Image: A hand gently pre-soaking a white fabric item in a basin, demonstrating the pre-soak method for tough stains.

## Method 2: Laundry Booster for Brighter Whites

1. Add 1/2 cup of White Brite to warm water in the washer (for front-loading machines, add directly to the drum; for top-loading machines, add to the wash water before adding clothes).
2. Add your regular detergent.
3. Add clothes and wash as normal.

*Note: Do not use with peroxide, bleach, bleach detergents, or stain removers containing bleach.*

## INGREDIENTS

The primary active ingredient in OUT White Brite Laundry Whitener Powder is a whitener. For a complete list of ingredients, please refer to the product packaging.

## MAINTENANCE AND STORAGE

Store OUT White Brite Laundry Whitener Powder in a cool, dry place, away from direct sunlight and moisture. Ensure the cap is tightly sealed after each use to prevent clumping and maintain product effectiveness. Keep the product in its original container.

## TROUBLESHOOTING

Issue	Possible Cause	Solution
-------	----------------	----------

Issue	Possible Cause	Solution
Strong chemical odor during use	Normal for some users upon opening; insufficient ventilation.	Ensure adequate ventilation in the laundry area. The odor typically dissipates after washing.
Residue on fabrics after washing	Using too much product; insufficient rinse cycle.	Reduce the amount of product used. Ensure your washing machine completes a full rinse cycle. Re-wash items if residue persists.
Fabric color removed or faded	Product used on non-colorfast fabrics or colored items.	OUT White Brite is primarily for white fabrics. Always test on an inconspicuous area for colorfastness before full application, especially on items with colored patterns or trims.

## SPECIFICATIONS
