Vitamix 212-1041

Vita-Mix 48 oz. Blender Container

USER MANUAL

Product Overview

This manual provides essential information for the proper use and care of your Vita-Mix 48 oz. Blender Container, model 212-1041. Designed for compatibility with Vita-Mix Blending Station Advance systems, this container is ideal for various blending tasks in commercial settings.

An image showing the clear 48 oz. blender container with its black lid and stainless steel blade assembly. Measurement markings are visible on the side.

Setup and First Use

Before initial use, please follow these steps:

1. **Unpack:** Carefully remove the blender container from its packaging. Inspect for any signs of damage.
2. **Wash:** Wash the container, lid, and lid plug with warm, soapy water. Rinse thoroughly.

3. **Dry:** Allow all components to air dry completely or dry with a clean cloth.
4. **Assemble:** Ensure the blade assembly is securely seated at the bottom of the container. Place the lid firmly on the container, and insert the lid plug into the opening.

Operating Instructions

To achieve optimal blending results and ensure safety:

- **Placement:** Always place the container securely onto the blender base before adding ingredients or starting the machine.
- **Ingredients:** Add ingredients to the container. For best results, add liquids first, followed by soft ingredients, then hard ingredients, and finally ice.
- **Lid Security:** Always ensure the lid and lid plug are securely in place before operating the blender to prevent spills and ensure proper blending.
- **Blending:** Follow the operating instructions of your specific Vita-Mix Blending Station Advance for blending cycles and speeds.
- **Hot Liquids:** When blending hot liquids, do not fill the container above the 2-cup (0.5 liter) mark. Always remove the lid plug and secure the lid before blending hot liquids to allow steam to escape.

Care and Maintenance

Regular cleaning and proper maintenance will extend the life of your container:

- **Daily Cleaning:** After each use, rinse the container immediately. For thorough cleaning, fill the container halfway with warm water and a drop of dish soap. Secure the lid and run the blender on high for 30-60 seconds. Rinse thoroughly.
- **Deep Cleaning:** For stubborn residue, a brush can be used to clean around the blades. Always exercise caution when cleaning near the blades.
- **Drying:** Invert the container to allow it to air dry completely to prevent water spots and odors.
- **Storage:** Store the container in a clean, dry place.
- **Dishwasher Safety:** Refer to your blender's specific instructions regarding dishwasher compatibility for the container.

Troubleshooting

Common issues and their solutions:

Problem	Solution
Container leaks during blending.	Ensure the lid is securely fastened and the lid plug is properly inserted. Check the blade assembly for proper seating.
Ingredients not blending smoothly.	Ensure proper liquid-to-solid ratio. Use the tamper (if applicable to your blender model) to push ingredients towards the blades. Increase blending speed or time.
Container has persistent odor.	Perform a deep clean. For strong odors, blend a solution of water and baking soda, then rinse thoroughly. Ensure container is completely dry before storage.

Product Specifications

Feature	Detail
Brand	Vitamix
Model Number	212-1041
Capacity	48 oz. (approximately 1.4 liters)
Color	Clear
Blade Material	Stainless Steel
Product Dimensions	13 x 9 x 8 inches
